*Handwritten notes:*  
PC-75 11/11/62  
amendment 10/31/64  
of metering

Oil Conservation Commission  
P. O. Box 2088  
Santa Fe, New Mexico

Gentlemen:

Administrative Order PC-75, as amended, authorized commingling of production from the Fusselman, Tubb/Drinkard, Devonian, Ellenburger, McKee, and Waddell zones on the Elwyn C. Hale - Hale State well Nos. 1, 2 and 3 in the S/2 NE/4 Section 2, Township 25 South, Range 37 East, Lea County.

It is respectfully requested that Order PC-75 be amended to authorize commingling of production from these wells as follows:

- Hale State No. 1: Fusselman and Tubb/Drinkard zones, no change.
- Hale State No. 2: Blinebry and Tubb/Drinkard zones.  
(Dual completion order MC-1491, approved 5/25/64)
- Hale State No. 3: Blinebry, Ellenburger, McKee and Montoya zones.  
(Quadruple completion order MC-1492, approved 5/25/64)

The metering and testing facilities for the production from Hale State No. 2 are those previously approved for Fusselman and Devonian zones.

The facilities for metering and testing production from the Blinebry and Montoya zones of Hale State No. 3 are those previously approved for Devonian and Waddell zones.

There has been no change in the lease equipment as originally approved.

Yours very truly,

OIL REPORTS AND GAS SERVICES

W. L. Smith

Attention: Mr. W. L. Smith

Gentlemen:

Reference is made to your letter of June 22, 1964, requesting an amendment to Administrative Order PC-75, which as amended authorizes the commingling of Fusselman, Tubb-Drinkard, Devonian, Ellenburger, McKee, and Waddell production on Elwyn C. Hale's Hale State Lease comprising the S/2 NE/4 of Section 2, Township 25 South, Range 37 East, Lea County, New Mexico. It is our understanding that you wish to substitute the Blinbry and Montoya formations for the Devonian and Waddell formations in the above-described commingling authority.

We have not as yet received consent from the Commissioner of Public Lands for the State of New Mexico to the aforesaid commingling. We suggest that you contact the Land Office regarding this matter. We will be happy to process your application upon receipt of the Land Commissioner's approval.

Very truly yours,

Daniel S. Nutter  
Chief Engineer

Re: Administrative  
Order PC-75

Attention: Mr. Daniel S. Nutter

Gentlemen:

This in answer to your letter of August 19, 1964 wherein you advised that you had not received consent for commingling production of the Elwyn C. Hale - Hale State lease, S/2 NE/4 of Section 2, Township 25 South, Range 37 East, Lea County, New Mexico.

We attach herewith a copy of a letter from the Commissioner of Public Lands dated October 31, 1962 granting permission to commingle all zones producing from the S/2 NE/4 of Section 2.

Yours very truly,

OIL REPORTS AND GAS SERVICES

Re: Application for permit to commingle production, Elwyn C. Hale, Hale State Lease No. B2317, Fussellan, Devonian, Drinkard, Waddel, McKee and Ellenberger Pools, Lea County, New Mexico. North Justis Field.

Attn: Howard P. Holmes

Gentlemen:

Permission is hereby granted to commingle the production from your Hale State Wells Nos. 1,2,3, all zones producing from the S $\frac{1}{2}$ NE $\frac{1}{4}$  of Section 2, Township 25S, Range 37E.

This, of course, is in accordance with your proposed operation to comply with the Oil Conservation Commission rules. It is also our understanding that the specific gravity of the various commingled crudes will not be less and that the State will perhaps receive an increase in royalties.

Thank you for sending us the information upon the proposed operation.

Very truly yours,

E. S. JOHNNY WALKER  
COMMISSIONER OF PUBLIC LANDS

Attention: Mr. W. L. Smith

Gentlemen:

Reference is made to your letter of September 9, 1964, with which you enclosed a photostatic copy of letter from Commissioner of Public Lands for the State of New Mexico dated October 31, 1962, authorizing Elwyn C. Hale to commingle the production from all zones then producing on his Hale State Lease in the S/2 NE/4 of Section 2, Township 25 South, Range 37 East, Lea County, New Mexico. This letter was in reply to our letter of August 19, 1964, suggesting that you contact the Commissioner of Public Lands obtaining his consent to the requested inclusion of the Blinberry and Montoya formations in the commingling installation in lieu of the Devonian and Waddell formations.

You will note that the Commissioner of Public Lands has not as yet authorized the substitution of the Blinberry and Montoya formations for the Devonian and Waddell. It will be necessary that you obtain his consent before we can process this application.

Very truly yours,

Daniel S. Nutter  
Chief Engineer

Re: Elwyn C. Hale  
Hale State lease  
S/2 NE/4 2 T25S R37E

Attention: Mr. Ted Bilberry

Gentlemen:

Under date of October 31, 1962 permission was granted to commingle the production from the Fusselman, Devonian, Drinkard, Waddel, McKee and Ellenburger zones, North Justis Pool, Lea County, New Mexico, from the captioned lease.

We hereby make application to delete the Waddel zone and add the Blinebry and Montoya zones. In support of this request we state that:

1. All production is from State lease B-2317 with no division of royalty interest.
2. The Blinebry and Montoya zones produce sweet crude with gravities of 36.0 to 43.5 and will result in no loss of revenue to the State of New Mexico.
3. No change has been made in the originally approved metering and testing installation by which all oil is metered before commingling.
4. There has been no production from the Waddel zone to date and none is anticipated in the future.

This application is respectfully submitted for your approval with the understanding that all oil produced and commingled will be in accordance with all the applicable Rules and Regulations of the Oil Conservation Commission.

Yours very truly,

OIL REPORTS AND GAS SERVICES

In RE: Elwyn C. Hale  
Hale State Lease  
S4NE4, Sec. 2, T-25-S,  
R-37-E, Lease No. B-2317

Gentlemen:

P

Your request for an amendment to Administrative Order No. PC-75 is hereby granted from this office since there will be no loss of royalty to the State with the addition of the Blinebry and Montoya zones. We are assuming that one of these zones will be metered as the Waddel was supposed to have been, and the other one will be by the subtraction method.

Y

This approval is granted with the understanding that the Commissioner of Public Lands reserves the right to amend or withdraw his approval should a loss to the State occur at any time through this installation.

Very truly yours,

E. S. JOHNNY WALKER,  
Commissioner of Public Lands
