Gentlemen:

Your letter of April 16, 1962, requests approval to commingle oil production from the North Justis Tubb-Drinkard and Devonian Pools on your G. L. Erwin (a) NCT-2 Federal lease, Las Cruces 032874(a).

The method of commingling described by the diagrams attached to your letter is hereby approved.

You are requested to notify our Hobbs office when the installation is completed so that a field inspection of the system can be made.

Very truly yours,

JOHN A. ANDERSON  
Regional Oil and Gas Supervisor

Amendment  
Administrative Order PC-82

Gentlemen:

P  
Y  
Reference is made to your application, dated June 28, 1962, for an amendment to Administrative Order PC-82, dated May 11, 1962, which authorized Texaco Inc. to commingle the production from the North Justis Tubb-Drinkard and North Justis-Devonian Pools underlying your G. L. Erwin "a" Lease, comprising the SW/4 of Section 35, Township 24 South, Range 37 East, Lea County, New Mexico. It is our understanding that you now wish to include the North Justis-Blinebry production from this lease in the commingling tank battery inasmuch as the Blinebry production has been reclassified from sour to intermediate sweet. We further understand that you will separately meter the production from the North Justis Tubb-Drinkard and North Justis-Devonian Pools and determine the Blinebry production by means of the subtraction method.

Administrative Order PC-82 is hereby amended to include the North Justis-Blinebry Pool in the previously authorized installation.

Very truly yours,

A. L. PORTER, Jr.,  
Secretary-Director
