**Amendment  
Administrative Order PC-82**

**Gentlemen:**

Reference is made to your letter of December 23, 1964, wherein you advise that certain wells completed in the Blincoy zone on Texas's G. L. Erwin "a" Lease, comprising the S<sup>1</sup>/<sub>4</sub> of Section 35, Township 24 South, Range 37 East, Lea County, New Mexico, are now capable of top allowable production following recent.

Administrative Order PC-82, entered May 11, 1962, as amended July 20, 1962, and October 9, 1964, authorizes the commingling of Tubb-Driskard, Devonian, and Blincoy production on said lease without separate measurement due to the marginal nature of all zones.

Administrative Order PC-82 is hereby amended to provide that the Blincoy on said lease shall be separately metered prior to commingling and the subtraction method used for determining the Tubb-Driskard and the Devonian production.

Very truly yours,

A. L. Foster, Jr.  
Secretary-Director
