Attention: Mr. Joe D. Ramey  
Secretary-Director

Gentlemen:

In accordance with New Mexico Oil Conservation Division Rule 303-B, Texaco Inc. respectfully requests permission to surface commingle liquid production from the Undesignated Abo with that from the already commingled Skaggs Drinkard, Skaggs-Glorieta, East Weir Blinebry and Tubb production on the basis of periodic well testing.

Since the gravity of the Undesignated Abo oil is not expected to change significantly the gravity of the now commingled production, the commercial value of the crude oil from the lease will remain unchanged.

A schematic diagram of the proposed commingling installation and a plat of the subject lease are attached.

Shell Pipeline Company, as Purchaser of crude production, is being furnished a copy of this application.

Yours very truly,

TEXACO INC.  
PRODUCING - UNITED STATES
