OIL CONSERVATION COMM.
Santa Fe

Gentlemen:

Continental Oil Company respectfully requests an amendment to PC-91 which gave us authority to commingle production from our Hawk B-10 lease, Section 10, T-21S, R-37E, Lea County, New Mexico, after metering the production from the Blinebry, Tubb, and Wantz Abo pools. The attached table of latest tests on the Hawk B-10 lease shows there are no top allowable wells on the lease now. Therefore, we request the metering requirements be deleted for the Blinebry, Tubb, and Wantz Abo pools. Liquid hydrocarbons from the Blinebry gas pool will continue to be metered. The attached schematic shows our proposed revision to the present facilities.

Yours very truly,

dw
