REQUEST FOR AMENDMENT TO

COMMINGLING WITHOUT SEPARATELY  
MEASURING, VACUUM FIELD,  
LEA COUNTY, NEW MEXICO

Gentlemen:

Mobil Oil Corporation respectfully requests that Administrative Order PC-100 be further amended so as to permit the commingling of production from the aforementioned pools by determining the production from each well and each pool by well tests conducted periodically as the Commission may prescribe.

As shown on the attached tabulation of production for the months August 1970 and September 1970, the average daily production for this period is considerably below top unit allowable for the subject pools, and the connected wells are now incapable of producing top unit allowable.

The royalty ownership of all commingled zones is identical. Should any further information be required, please advise.

Yours very truly,

Ira B. Stitt
