Attention Mr. A. L. Porter, Jr.,  
Secretary Director

Gentlemen:

Subject: Administrative Order PC-101-State A-2 Lease, Lea County  
New Mexico

---

Administrative Order PC-101 was amended November 12, 1969, deleting the metering requirements of the original order. Recently Continental has abandoned Devonian and Abo production on the lease and has performed remedial work on the Blinebry completions so that there is now top allowable Blinebry production on the lease. Attached hereto is a schematic diagram, showing the revised tank battery and the method of metering Blinebry production prior to commingling with the Drinkard production. We propose to provide metering for the Blinebry production so long as top allowable producing rates continue.

Please advise if this proposal is not satisfactory.

Yours very truly,

VTL-RW  
CC: NMOCC-Hobbs
