**(Administrative Order PC-102)
Administrative Order CTB-91) Amendment**

Gentlemen:

Reference is made to your two letters of November 20, 1962, the first of which concerns commingling your State of New Mexico "M" Well No. 1, a North Bagley-Upper Pennsylvanian producer, with your Humble State Lease production, and the second of which concerns commingling your John R. Thompson Well No. 1, a North Bagley-Wolfcamp producer, with your Humble State production. The Commission previously by combination order PC-102 CTB-91 authorized the commingling of Wolfcamp production from the Humble State Lease with Pennsylvanian production from your State "L" Lease, after separately metering the production from each lease and each pool. It is our understanding from your present request that it is your intent to commingle Upper Pennsylvanian production from your State "M" Lease, Wolfcamp production from your Humble State Lease, Upper Pennsylvanian production from your State "L" Lease, and Wolfcamp production from your Thompson Lease, all in Sections 22 and 23, Township 11 South, Range 13 East, Lea County, New Mexico.

Combination Administrative Order PC-102 CTB 91 is hereby amended to permit the commingling of production from the aforesaid pools and said leases in the above-described manner. Provided however, that the production from each pool and from each lease shall be metered separately prior to such commingling; and provided further, that the installation shall be operated in accordance with the provisions of the Commission "Manual for the
