Santa Fe, New Mexico

Gentlemen:

Cabot Corporation hereby requests an amendment to Administrative Orders PC-102 and CTB-91 to permit commingling in common facilities of oil produced from the Wolfcamp formation in Cabot's State of New Mexico "L" lease in Section 23, Township 11 South, Range 33 East, Lea County. Prior exception has been granted this lease for commingling production from the Upper Penn formation under the above Administrative Orders.

Oil produced from the State of New Mexico "L" lease will be commingled with Wolfcamp production from Cabot's Humble-State lease and Upper Penn production from Cabot's State of New Mexico "M" and Thompson leases into a central tank battery on the Humble-State lease.

There will be no loss of gravities or values of oil produced and commingled.

Attached is a schematic diagram of the proposed installation and a plat showing leases and wells involved.

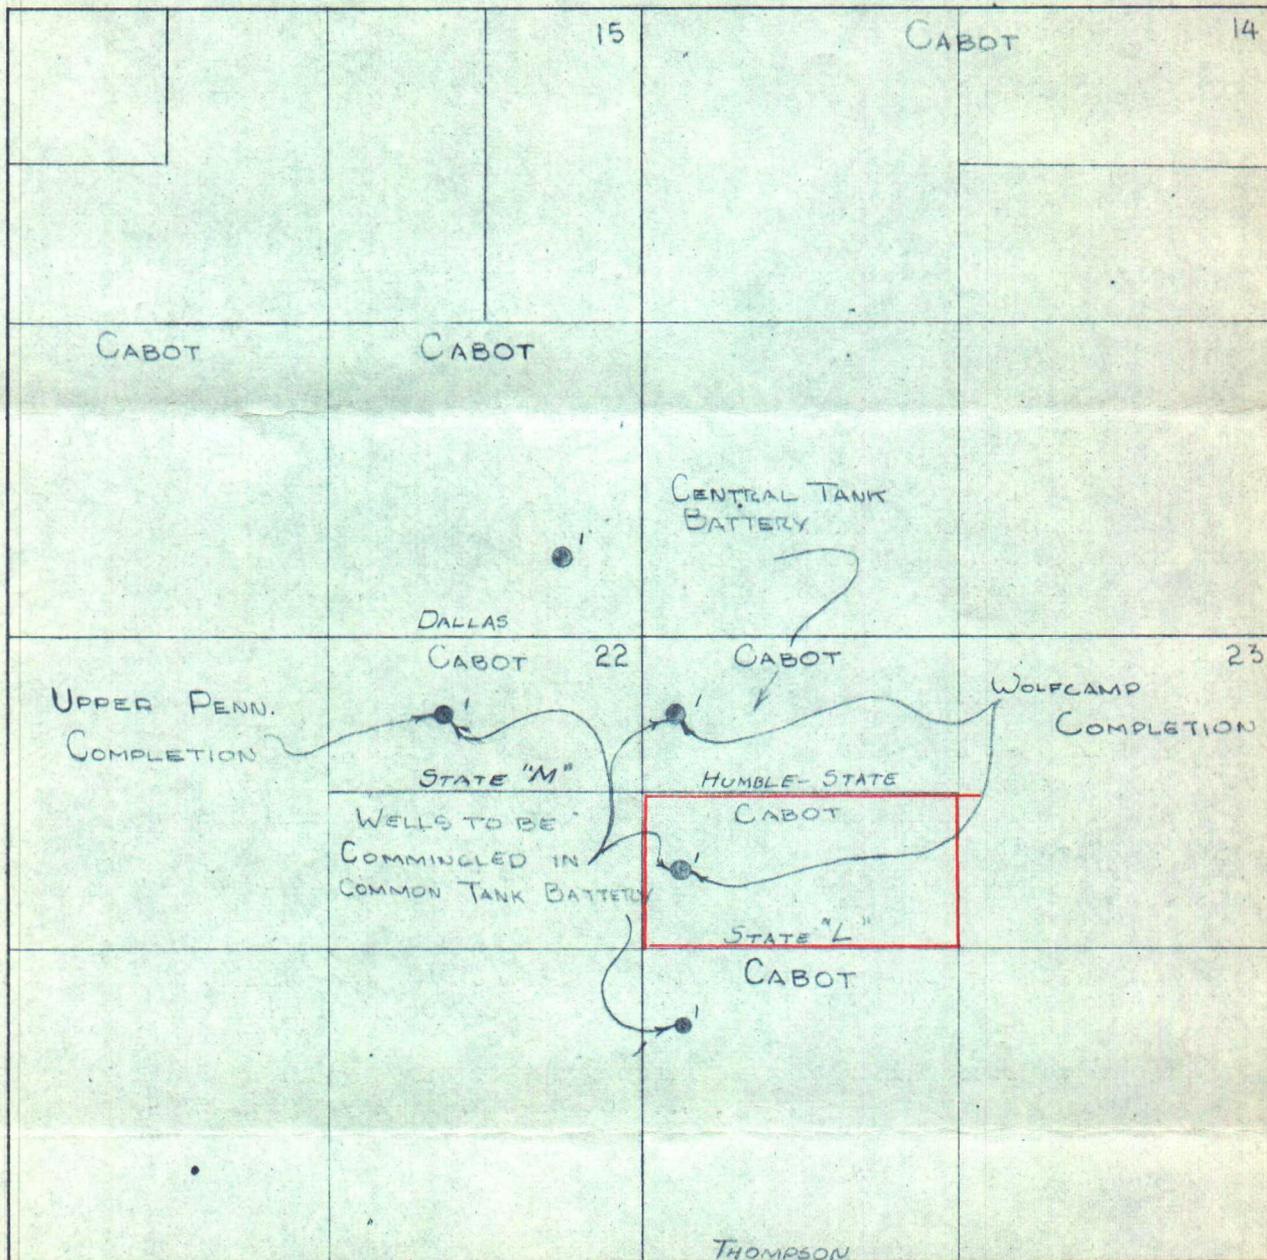

Your early approval for an amendment to Administrative Orders PC-102 and CTB-91 will be appreciated.

Yours very truly,

W. M. Sargent, Jr.

Attention: Mr. W. M. Sargent, Jr.

**Administrative Order PC-102) Amendment
Administrative Order CTB-91)**

Gentlemen:

Reference is made to your letter of December 7, 1962 wherein you request an amendment to combination administrative order PC-102 CTB-91 as amended by our letter of December 3, 1962.

It is our understanding that your John R. Thompson Well No. 1 has been completed in the Upper Pennsylvanian formation rather than in the Wolfcamp formation and that you wish the aforesaid administrative orders to authorize commingling Upper Pennsylvanian production from said well rather than Wolfcamp production.

Combination order PC-102 CTB-91 is hereby amended as described above.

Very truly yours,

**A. L. Porter, Jr.
Secretary Director**

Gentlemen:

Reference is made to the December 3, 1962 Amendment of Combination Administrative Order PC-102 CTB-91 concerning commingling of Cabot's John R. Thompson well No. 1 into a common tank battery on their Humble-State lease. The amendment authorized commingling of production from the Wolfcamp formation from the Thompson No. 1. Subsequent to making the application, the Thompson No. 1 was completed in the Upper Pennsylvanian formation.

It is respectfully requested that the amended Administrative Order PC-102 CTB-91 be changed to read "Upper Pennsylvanian production" in respect to Cabot's Thompson lease.

Yours very truly,

W. M. Sargent, Jr.
Petroleum Engineer
