Santa Fe, New Mexico 87501

Attention: Mr. Joe Ramey

Dear Sir:

Surface Commingling, Hawk A Lease, Unit A, Section 8, T-21S, R-37E, Lea
County, New Mexico

Surface commingling of the Blinebry Oil and Gas and Drinkard pools on the above referenced lease was begun in 1963 under NMOCD order PC-133. This order required that the Drinkard zone be metered separately. However, the Drinkard has declined and is no longer top allowable; also, six of the nine wells on the lease are now downhole commingled. We are requesting your approval to discontinue metering of the Drinkard pool and thus allocate all production on a well test basis. Attached is Bureau of Land Management approval, a lease plat, battery schematic and form C-115 to indicate production.

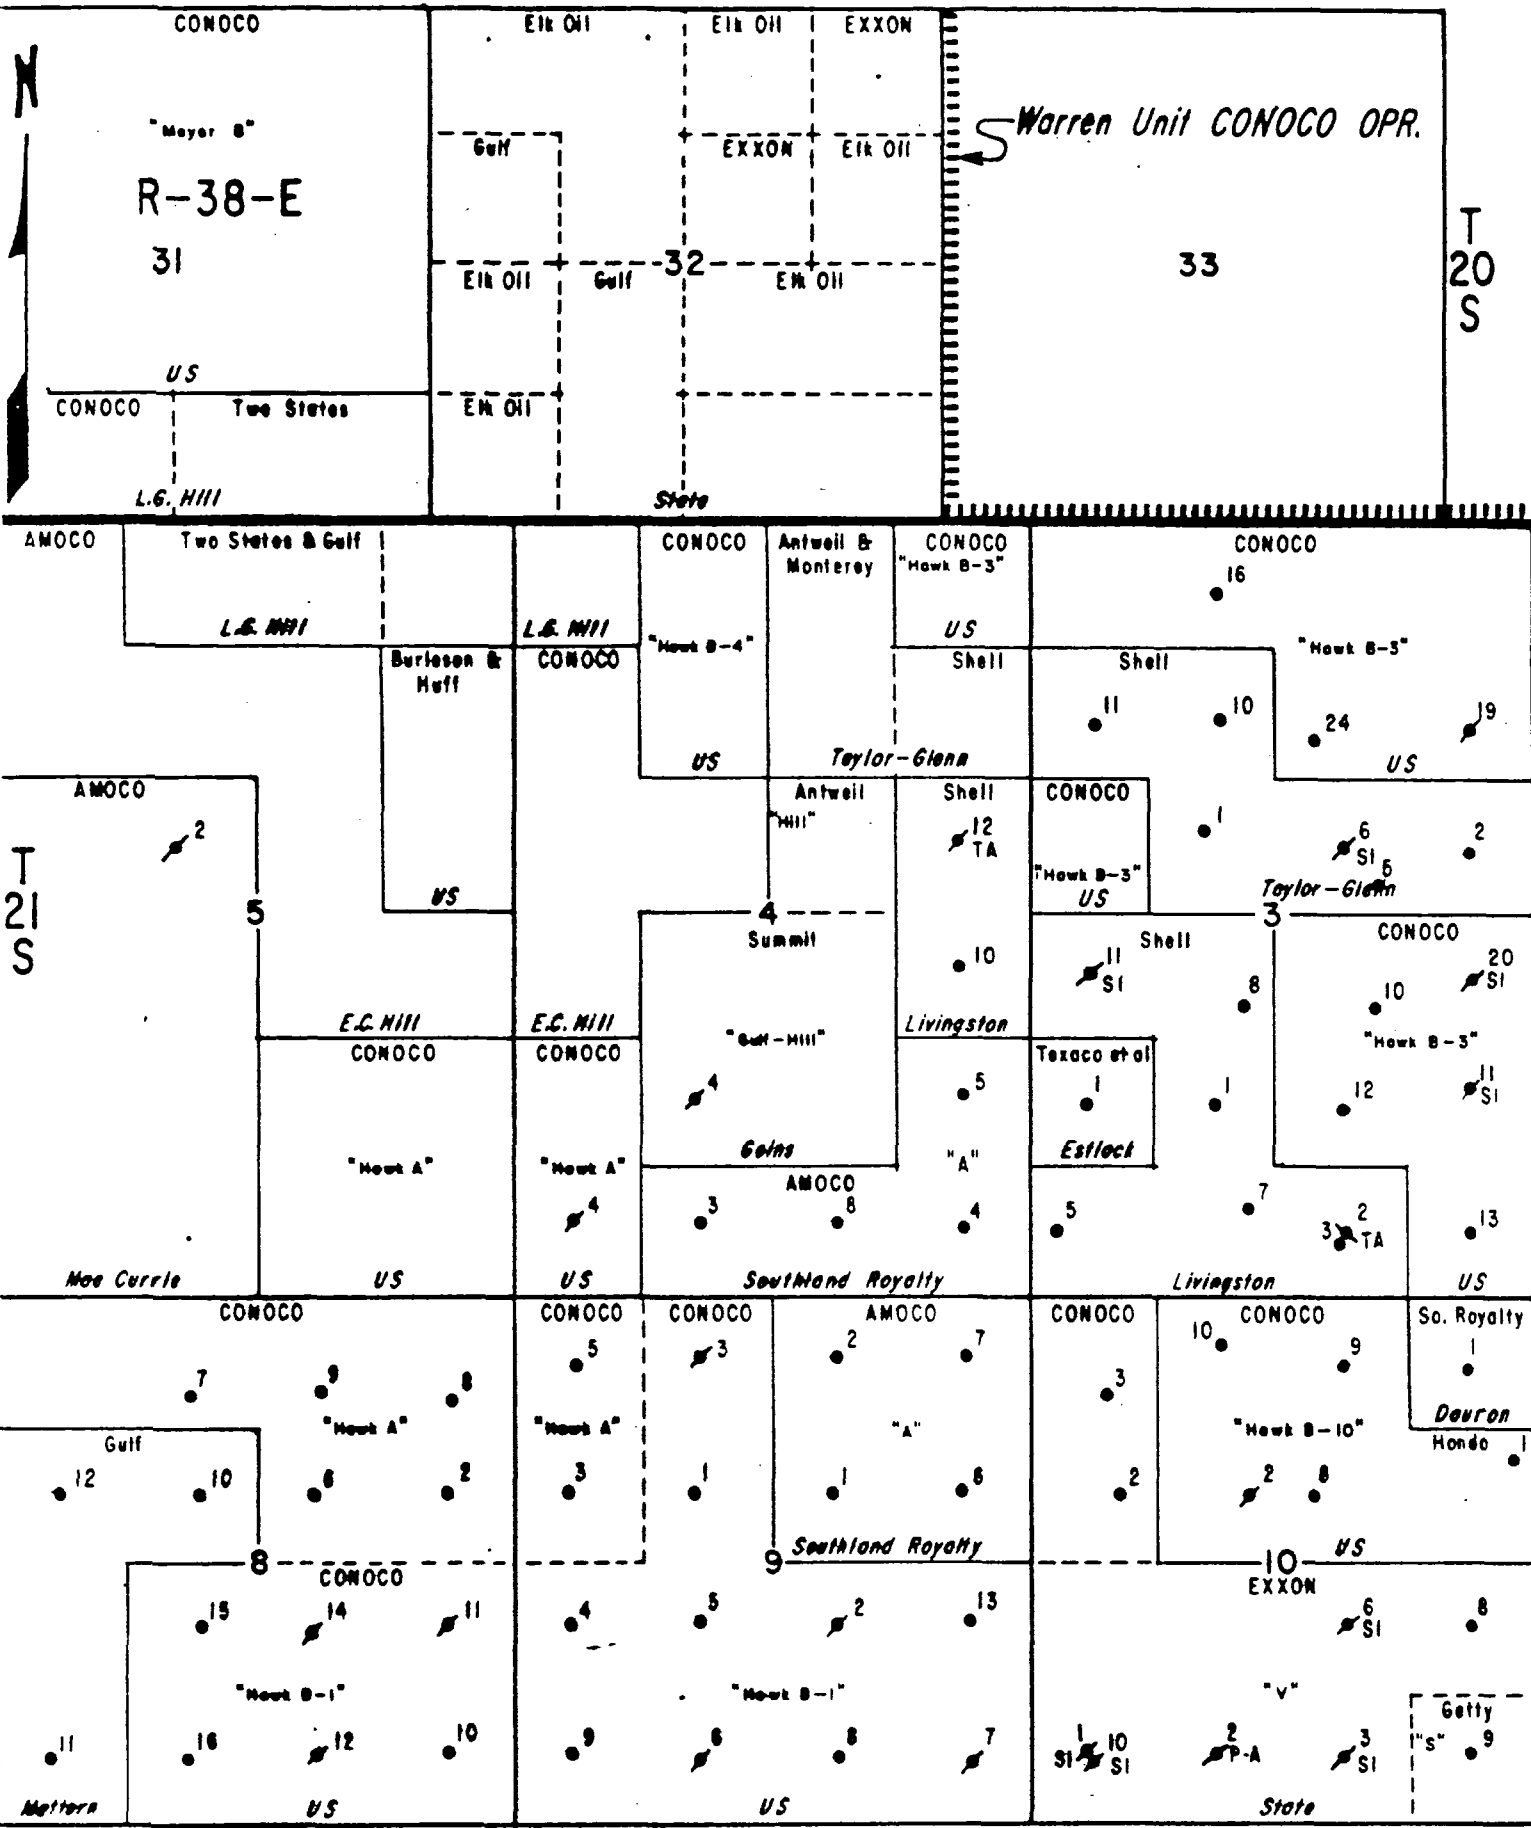

Your assistance in this matter will be greatly appreciated.

Yours very truly,

MMS:cyp
Attachments

*Production is at a low enough rate
to allow for allocation by production tests.*
