Attention: Mr. R. R. Alworth

AMENDMENT
Administrative Order PC-137

Gentlemen:

Reference is made to your letter of June 26, 1963, wherein you request authority to commingle oil production from the Granite Wash Oil Pool (undesiganted) with the production from the Blinebry and Drinkard Oil Pools on your New Mexico State "S" Lease comprising all of Section 2, Township 22 South, Range 37 East, Lea County, New Mexico.

Administrative Order PC-137 authorized the commingling of the Blinebry and Drinkard production on this lease after metering the production from the Blinebry Pool and determining the Drinkard production by means of the subtraction method. It is our understanding that you now propose to commingle the Granite Wash production, Blinebry production, and Drinkard production after separately metering the Granite Wash and Blinebry production, and determining the Drinkard production by means of the subtraction method.

By the authority vested in me under the provisions of Rule 303 (b) of the Commission Rules and Regulations, Administrative Order PC-137 is hereby amended and you are authorized to commingle the production from the aforesaid pools on said lease in the above-described manner. Provided however, that the installation shall be operated in accordance with the provisions of the Commission

"Manual for the Installation and Operation of Commingling Facilities," including the requirement for non-reset counters on the meters. You are also requested to notify the Hobbs District Office of the Commission at such time as this installation is complete in order that a field inspection of the installation may be made prior to putting it in operation.

Very truly yours,

A. L. PORTER, Jr.
