Gentlemen:

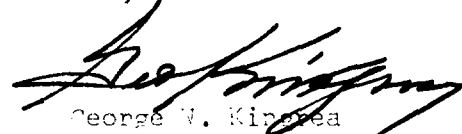

We would like to request Administrative approval to commingle the above dually completed well, which is 330' FSL & FEL of Section 34. The well is dually completed in the Tubb-Drinkard and Blinebry zones. The gravity of each is approximately the same, so the price for commingling will be the same as separate outlets.

The working interest and the royalty interest are the same for both pay zones.

Enclosed please find our sketch showing position of meters and entry into the tanks.

Yours very truly,

KINGREA, PENDLETON & REISER
