Attention: Mr. Joe D. Ramey

Re: Commingling of production  
from State BD-36, Well No. 1

Dear Mr. Ramey,

Aztec Oil & Gas Company respectfully requests permission to commingle production from the Blinebry Oil Zone and Drinkard Oil Zone without metering. The Drinkard zone has been temporarily abandoned since December, 1959, but the recent installation of pump and rods has made it possible to resume production. The following facts are pertinent to this request:

1. Aztec Oil & Gas Company is the joint owner and designated operator of State BD-36, Well No. 1 in the Blinebry Oil Pool and Drinkard Oil Pool, located 1980 feet from the South and East lines of Section 36, Township 22 South, Range 37 East, Lea County, New Mexico.
2. The commingling of these two zones into common storage has been approved by Order R-1238.
3. The Blinebry Zone produces at a rate less than top allowable, being 8 barrels per day.
4. The Drinkard Zone produces at a rate less than top allowable, being 18 barrels per day.
5. A plat showing commingling facilities is attached.
6. A copy of this application has been sent to all offset operators.

Yours very truly,

Lester L. Duke  
District Superintendent
