Gentlemen:

Reference is made to your application dated March 26, 1964, for administrative approval of an exception to Rule 303 (a) of the Commission Rules and Regulations to permit the commingling of Raish-Yates, Raish-Wolfcamp, and Maljamar-Abo production on your Raish-"A" Lease, located in Sections 21 and 22, Township 17 South, Range 32 East, Lea County, New Mexico, after separately metering the Abo and Wolfcamp production and determining the Yates production by means of the subtraction method.

By the authority vested in me under the provisions of Rule 303 (b) of the Commission Rules and Regulations, you are hereby authorized to commingle the production from the aforesaid pools on said lease in the above-described manner. Provided however, that the installation shall be operated in accordance with the provisions of the Commission "Manual for the Installation and Operation of Commingling Facilities," including the requirement for non-reset counters on the meters, and provided further, that you shall notify the Hobbs District Office of the Commission at such time as this installation is complete in order that a field inspection may be made of the installation prior to putting it in operation.

Very truly yours,
