Attention: Mr. Daniel S. Miller

Dear Sir:

In reply to your letter of July 31st concerning Ray Smith's Sunshine Royalty lease located in Section 17, Township 22N, Range 33E, Lea County, New Mexico, this lease is not a federal lease, it is a Fee lease. I believe if you will check you will find this to be correct. We trust this will allow you to go ahead and issue the coninciding permit.

Thank you.

Yours truly,

Everett L. Smith
Petroleum Engineer

Attention: Mr. Everett L. Smith

Gentlemen:

Reference is made to your recent request for commingling authority for Mr Ray Smith's Sunshine Royalty Lease.

I believe that this is a federal lease. It will therefore be necessary for you to secure the approval of the United State Geological Survey before we can permit this commingling.

Very truly yours,

Daniel S. Nutter
Chief Engineer

Dear Sir:

Mr. Ray Smith sincerely requests exception to Rule 303A in that he be allowed to co-mingle the production on his Sunshine Royalty lease, Well #1, between the drinkard field and the drinkard paddock zone. This is a dually completed well both well zones are pumping and neither well will make the top allowable for their respective zones.

If there is any additional information necessary, please let us know.

Yours truly,

Everett L. Smith
Petroleum Engineer
