Attention: Mr. F. B. Ellis

Administrative Order IC-237

Gentlemen:

Reference is made to your application dated September 4, 1964, for administrative approval of an exception to Rule 303 (a) of the Commission Rules and Regulations to permit the commingling of hydrocarbon liquid production from the Otero-Gallup and Basin Dakota Pools on your Northeast Haynes Apache Lease, comprising the S/2 of Section 9, S/2 of Section 10, all of Sections 15 and 16, and the N/2 of Section 21, and the N/2 of Section 22, Township 24 South, Range 3 West, Rio Arriba County, New Mexico, allocating the production on the basis of periodic well tests. It is our understanding that the production from both of the aforesaid pools is of marginal nature.

By the authority vested in me under the provisions of Rule 303 (b) of the Commission Rules and Regulations, you are hereby authorized to commingle the production from the aforesaid pools on said lease in the above-described manner. Provided however, that the installation shall be operated in accordance with the provisions of the Commission "Manual for the Installation and Operation of Commingling Facilities," and provided further, that you shall notify the Commission at such time as any well in either of the aforesaid pools is capable of top allowable production.

Very truly yours,

A. L. Porter, Jr.
Secretary-Director
