Standard Oil Company of Texas  
P. O. Box 1249  
Houston, Texas 77001

Attention: Mr. C. E. Souder

Administrative Order CTB-107

P  
Y  
Gentlemen:

Reference is made to your recent request for administrative approval of an exception to Rule 109-A of the Commission Rules and Regulations to permit the commingling of Vacuum Glorieta production from your Vac Edge Unit Wells Nos. 1-G and 2-G in Section 5, Township 18 South, Range 35 East, with Glorieta production from your State 3-32 Lease comprising the NW/4 of Section 32, Township 17 South, Range 35 East, Lea County, New Mexico, after separately metering the Vac Edge production and determining the 3-32 production by means of the subtraction method.

Under the authority granted me pursuant to Rule 109-B, Standard Oil Company of Texas is hereby authorized to commingle the above-described production as proposed, subject to the provisions of the Commission "Manual for the Installation and Operation of Commingling Facilities," including the provision for non-reset counters on the meters. Please notify the Hobbs District Office of the Commission at such time as the installation is complete in order that an inspection may be made prior to putting it in operation.
