Re: Administrative Order PC-276

Gentlemen:

Reference is made to your letter dated August 5, 1965, wherein you advise that further review of your proposed installation for commingling Monument and Monument-Blinberry production on your Britt A-6 Lease as authorized by Administrative Order PC-276 indicates that the test system consisting of a separator, heater treater, meter, and sampler, as shown on the schematic diagram will not be necessary.

The Oil Conservation Commission has no objection to the omission of these facilities in this particular installation.

Very truly yours,

A. L. Porter, Jr.
Secretary-Director

Re: Administrative Order 10-1

Dear Sir:

As you are aware from your letter dated August 3, 1965, wherein you advised that further review of your proposed modification for completion of your proposed modification on your first 2-4 inch as authorized by Administrative Order 10-1 indicates that the test system consisting of a separator, heater, and sampler, as shown on the schematic diagram will not be necessary.

The Oil Conservation Commission has no objection to the inclusion of these facilities in this particular modification.

Very truly yours,

A. C. Jackson, Jr.
Secretary-Director
