April 7, 1966

New Mexico Oil Conservation Commission  
P. O. Box 2088  
Santa Fe, New Mexico

Gentlemen:

Attached are two copies of U. S. Geological Survey's approval to commingle in common facilities, the liquid condensate from the Undesignated Mississippian gas pool and the Table Mesa Pennsylvanian "C" gas pool from Well No. 29, Unit F, Section 9, T27N, R17W, and Well No. 18, Unit F, Section 3, T27N, R17W, San Juan County, New Mexico.

Application to the Commission was submitted February 28, 1966.

Very truly yours,

A handwritten signature in cursive script, appearing to read "H. D. Haley".

Attention: Mr. Ben W. Smith

Gentlemen:

Your letter of February 28, 1966, requests permission to commingle in common surface facilities, the liquid condensate from the Undesignated Mississippian gas pool and the Table Mesa Pennsylvanian "C" gas pool, from well No. 29, SE $\frac{1}{4}$ NE $\frac{1}{4}$  sec. 9, T. 27 N., R. 17 W., and well No. 18, SE $\frac{1}{4}$ NW $\frac{1}{4}$  sec. 3, T. 27 N., R. 17 W. on Navajo Indian lease I-89-Ind-57, San Juan County, New Mexico.

The method you propose for allocating condensate production by periodic gas-oil ratio tests is satisfactory to this office. Form 9-361, Lessee's Monthly Report of Sales and Royalty, must show all computations used in the calculations of condensate attributable to each well.

Sincerely yours,

JOHN A. ANDERSON  
Regional Oil and Gas Supervisor
