Re: Application for Addition to Present
Commingled Installation, TEXACO Inc.,
Vacuum Pool Consolidation and State
of New Mexico "T" NCT-4 Leases,
Vacuum (San Andres) Pool, Lea County,
New Mexico. Dated: December 17, 1962

Attention: Mr. Daniel S. Nutter

Gentlemen:

As per your request, attached are three (3) copies of State Land Office approval for the above captioned proposal. Also, a clarification of wording was requested as to the part that reads, "Royalty interest in the subject lease is common and is held in part by the State of New Mexico." This statement, which indicates "in part" is written into our standard form for requesting commingling under Rule 303 (b) where all royalty owners are not notified, but USGS notification is required. Inadvertantly these two words were not struck out when the subject application was filed. All royalty interest pertaining to the subject leases is owned 100 percent by the State of New Mexico.

Should you have any further questions, please advise.

Yours very truly,
