March 5, 1968

**Amerada Petroleum Corporation**

**P. O. Box 668**

**Hobbs, New Mexico 88240**

**Attention: Mr. G. O. Webb**

**Administrative Order PC-345**

**Gentlemen:**

Reference is made to your application dated February 8, 1968, for administrative approval of an exception to Rule 303 (a) of the Commission Rules and Regulations to permit the commingling of Blinebry and Tubb gas pool liquids from your J. G. Hare Well No. 5 and your J. G. Hare Well No. 7, both located in the SW/4 of Section 33, Township 21 South, Range 37 East, Lea County, New Mexico, allocating condensate production and low pressure separator gas production back to each zone and each well on the basis of semi-annual gas-liquid ratio tests.

Pursuant to the authority given me by Rule 303 (b) of the Commission Rules and Regulations, Amerada Petroleum Corporation is hereby authorized to commingle the liquid production from the aforesaid wells in the above-described manner, provided however, that the above commingling authority extends only to the condensate and low pressure gas production from the subject wells and not to the high pressure gas, which shall continue to be passed through separate meter runs.

Very truly yours,

**A. L. PORTER, Jr.**  
**Secretary-Director**

**ALP/DSM/esr**

**cc: Oil Conservation Commission (with enclosure) - Hobbs**  
**Oil & Gas Engineering Committee - Hobbs**
