Attn: Mr. A. L. Porter, Jr.

Dear Sir:

Sun Oil Company was granted an exception to Rule 303 (a) and permission to commingle production from the Blinebry Oil Pool with production from the Drinkard Pool on the W. W. Weatherly Lease located in Section 17, Township 21S, Range 37E, Lea County. Authorization was received August 7, 1968 by Administrative Order PC-356.

Due to planned revisions in the surface facilities on this lease, we hereby request cancellation of the above Administrative Order and request an exception to Rule 303 (a) for permission to commingle production from the Blinebry Pool with production from the Penrose Skelly Grayburg Pool on the lease.

The Weatherly Lease is 100% Sun Oil Company interest with common royalty ownership.

We propose to commingle production from Well No. 4-D, Blinebry Pool, with production from Well No. 1-K, Penrose Skelly Grayburg Pool. Both wells are marginal with average daily production as follows:

Well No. 1-K	14 BO	7 BW
Well No. 4-D	7 BO	10 BW

Since both wells are marginal commingling will be done without metering facilities.

Gravity of the crude from the Blinebry is 35 Deg. API and sells for an average price of \$2.90 per bbl. Gravity of the crude from the Penrose Skelly Grayburg is also 35 Deg. API and sells for an average price of \$2.90 per bbl. Average price for the commingled crude is \$2.90 per bbl.

*2-11-68
