Re: Amended Commingling
Order PC-383

Gentlemen:

Subject order authorized surface commingling of the Blinebry, Drinkard, Wantz Abo and Wantz Granite Wash production in a common tank battery on Gulf's Drinkard (NCT-B) Lease, Section 30-22S-38E, Lea County, New Mexico.

The Drinkard (NCT-B) Well No. 6, Unit P, Section 30-22S-38E, was recompleted in 1978 and has been erroneously carried in the Wantz Abo Pool since that time. As advised by the Hobbs Oil Conservation Division Office (see letter attached), the well is actually in the South Brunson Abo Pool and all records are being corrected accordingly.

It is requested that subject order be amended to delete the Wantz Abo Pool and include the South Brunson Abo Pool production on the Drinkard (NCT-B) Lease.

Yours very truly,

R. C. ANDERSON

Gentlemen:

It has come to our attention that your Drinkard (NCT-B) Well No. 6 located in Unit P of Section 30, T-22-S, R-38-E, has been erroneously carried in the Wantz Abo Pool since 1978 when it was recompleted from the Wantz Granite Wash to the Abo. The well is actually in the South Brunson Abo Pool.

We are correcting our records to reflect the South Brunson Abo Pool classification for the well and request that you make the same correction in your records.

this is correct

Yours very truly,
