Santa Fe, NM 87501

Gentlemen:

Amoco Production Company requests an amendment to Order R-1905 and Administrative Order PC-394 to provide for the addition of Drinkard production from our Grizzell "B" Well No. 4 into our Grizzell "B" Commingle Battery. The Battery is located in Unit G, SW/4 NE/4, Section 8, T-22-S, R-37-E. A schematic of the facility and a plat depicting the lease and wells involved are attached.

Our Grizzell "B" Well No. 4, located 1838' FNL and 1750' FEL, Section 8, T-22-S, R-37-E, Lea County, New Mexico, was completed on June 20, 1980, as a pumping oil well in the Und. Drinkard Oil pool and commenced production on that day. Oil and gas production from Grizzell "B" Well No. 4 will be allocated back on the basis of well tests. Production from the Paddock and Blinebry is being allocated based on well tests and production from the Fusselman is being metered separately.

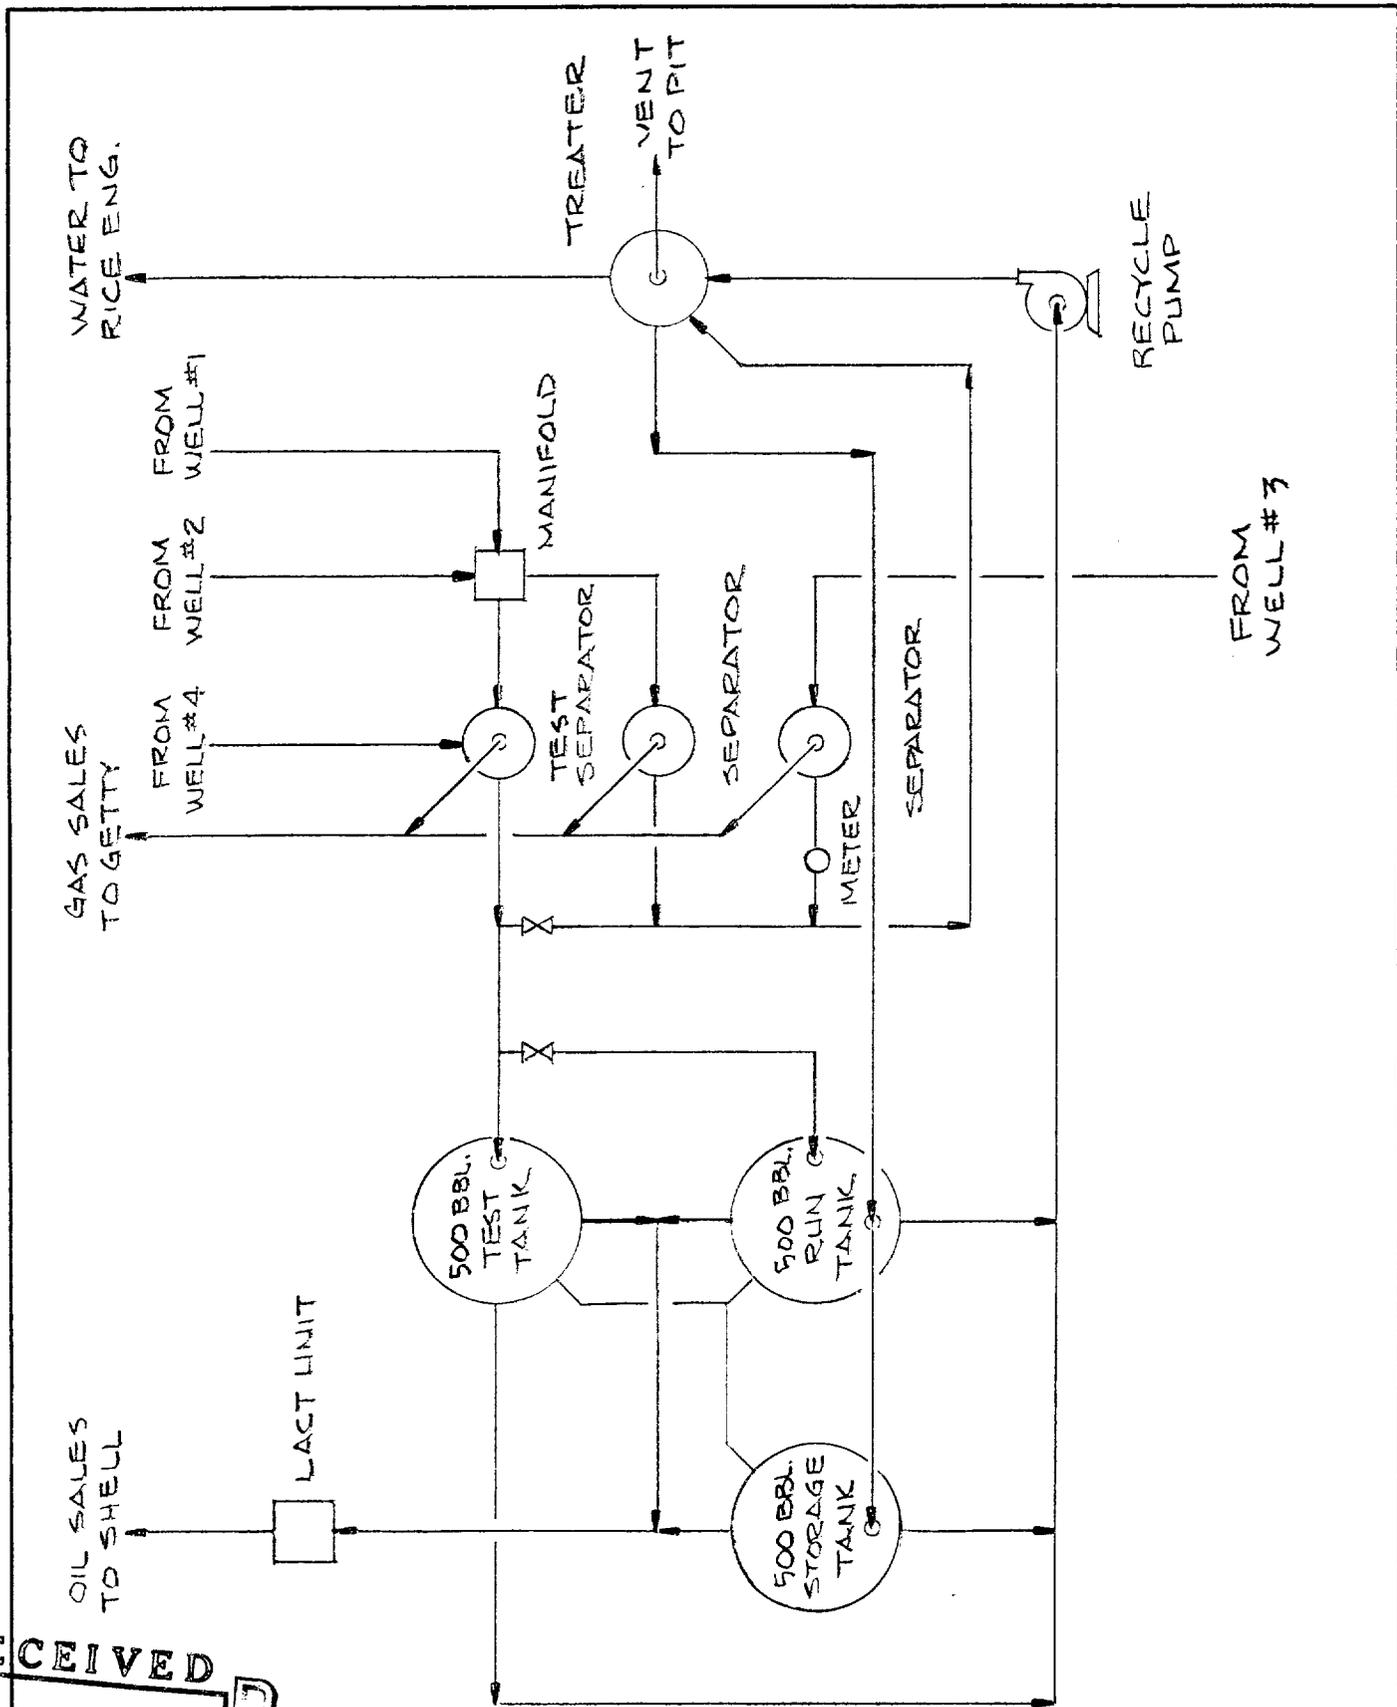

Yours very truly,
