C
Amerada Hess Corporation
P. O. Box 1920
Hobbs, New Mexico 88240

Attention: Mr. G. O. Webb

Administrative Order PC-397

O
Gentlemen:

P
Reference is made to your application for administrative approval of an exception to Rule 303-A of the Commission Rules and Regulations to permit the commingling of Grayburg-San Andres, Blinebry, and Drinkard production on your State "A" Lease comprising the N/2 NE/4 of Section 32, Township 18 South, Range 38 East, Hobbs Field, Lea County, New Mexico, after separately metering the Blinebry and the Drinkard production and determining the Grayburg-San Andres production by means of the subtraction method.

Y
By the authority vested in me under the provisions of Rule 303-B of the Commission Rules and Regulations, you are hereby authorized to commingle the production from the aforesaid pools on said lease in the above-described manner. Provided however, that the installation shall be operated in accordance with the provisions of the Commission "Manual for the Installation and Operation of Commingling Facilities," including the requirement for non-reset counters on the meters. Although the schematic diagram of the installation does not so indicate, it is assumed that the valves in the Blinebry and San Andres headers are equipped with interlocking devices to cause production from each of said zones when on test to be routed back into its respective production treater. Please notify the Hobbs District

Administrative Order PC-397

Gentlemen:

Reference is made to your application for administrative approval of an exception to Rule 308-A of the Commission rules and Regulations to permit the commingling of Grayburg-San Andres, Blinberry, and Brinkard production on your State "A" lease containing the W/2 NE/4 of Section 32, Township 18 South, Range 38 East, Hobbs Field, Lea County, New Mexico, after separately metering the Blinberry and the Brinkard production and determining the Grayburg-San Andres production by means of the subtraction method.

By the authority vested in me under the provisions of Rule 308-B of the Commission Rules and Regulations, you are hereby authorized to commingle the production from the aforesaid wells on said lease in the above-described manner. Provided, however, that the installation shall be operated in accordance with the provisions of the Commission "Manual for the Installation and Operation of Commingling Facilities," including the requirement for non-reset counters on the meters. Although the schematic diagram of the installation does not so indicate, it is assumed that the valves in the Blinberry and San Andres headers are equipped with interlocking devices to cause production from each of said zones when on test to be routed each into the respective production treater. Please notify the Hobbs District
