Sun Oil Company
P. O. Box 1861
Midland, Texas 79701

Attention: Mr. J. B. Mille

Administrative Order PC-403

Gentlemen:

Reference is made to your application for administrative approval of an exception to Rule 303-A of the Commission Rules and Regulations to permit the commingling of Drinkard oil and Tubb and Blinabry gas condensate production on your Eva Owens Lease comprising the N/2 NW/4 of Section 3, Township 22 South, Range 37 East, Lea County, New Mexico, allocating the production on the basis of periodic well tests. It is our understanding that the Drinkard wells on the subject lease make approximately 12 barrels of oil per day and that the condensate production from the gas wells is approximately 1/2 barrels per day.

By the authority vested in me under the provisions of Rule 303-B of the Commission Rules and Regulations, you are hereby authorized to commingle the production from the aforesaid pools on said lease in the above-described manner, provided however, that the installation shall be operated in accordance with the provisions of the Commission "Manual for the Installation and Operation of Commingling Facilities," and provided further, that you shall notify the Commission at such time as any well in either of the aforesaid pools is capable of top allowable production.

It is the responsibility of the producer to notify the transporter of the aforesaid commingling authority.

Very truly yours,

A. L. PORTER, Jr.
Secretary-Director

SANTA FE, NEW MEXICO 87501

June 3, 1954

Mr. J. W. Williams
P. O. Box 100
Albuquerque, New Mexico 87101

Dear Mr. Williams:

Administrative Order 10-403

Reference

Reference is made to your application for administrative removal of an exception to Rule 303-A of the Conservation Rules and Regulations to permit the completion of a certain oil and gas lease and thereby gas condensate production on your lease. The lease is located in the NW 1/4 of Section 3, Township 33 North, Range 13 East, New Mexico. New Mexico. The production on the lease of periodic well tests. It is our understanding that the leased wells on the subject lease make approximately 10 barrels of oil per day and that the condensate production from the gas wells is approximately 1 1/2 barrels per day.

By the authority vested in me under the provisions of Rule 303-B of the Conservation Rules and Regulations, you are hereby authorized to complete the production from the leased pools on said lease in the above-described manner. Provided however, that the installation shall be operated in accordance with the provisions of the Commission Manual for the installation and operation of gas handling facilities and provided further, that you shall notify the Commission at such time as any well or other on the leased pools is capable of too excessive production.

It is the responsibility of the producer to notify the Commissioner of the leased pools.

Very truly yours,

W. L. POWELL, Jr.
Secretary-Treasurer
