Re: Commingling Condensate, A. B. Baker Lease

Dear Sir:

Amerada Hess Corporation has been authorized to commingle condensate production from the Tubb and Blinebry gas pools on the A. B. Baker Lease located in Section 10, T-22-S, R-37-E, Lea County, New Mexico.

The producing status of this lease has been changed and we are now producing condensate from the Blinebry and Tubb gas pools and from the Drinkard pool.

We, therefore, request authorization to commingle the condensate production from the Blinebry gas pool, Tubb gas pool and Drinkard pool in a common tank battery, and to determine the production from each pool by well test.

Yours very truly,

R. D. Wilkes
Area Superintendent
