AMENDMENT  
COMMINGLING ORDER PC-503

Company                      Getty Oil Company  
Address                      P. O. Box 249  
City, State, Zip              Hobbs, New Mexico

Attention:                    Mr. C. L. Wade

Lease Name:                 D. A. Williamson  
Description:                 NW/4 Section 23, T-21-S, R-37-E, Lea County

The above-named company is hereby authorized to commingle production from the following pools:

Blinebry, Tubb, and Drinkard

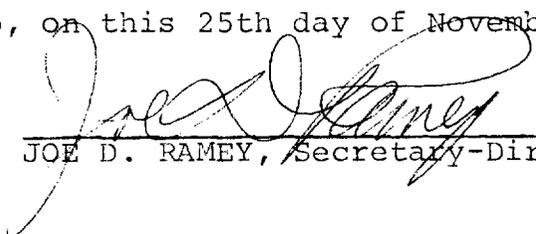

in a common tank battery, and to determine the production from each pool by

commingling the Drinkard and Tubb production, determining each by means of monthly well tests, then commingling this commingled production after metering with the Blinebry production, which would also be separately metered.

Note: This installation shall be installed and operated in accordance with the applicable provisions of Rule 303 of the Commission Rules and Regulations and the Commission "Manual for the Installation and Operation of Commingling Facilities." It is the responsibility of the producer to notify the transporter of this commingling authority.

REMARKS: It is our understanding that the above described arrangement for measuring production is necessary because of a difference in ownership between the Blinebry production and the commingled Tubb-Drinkard production. Prior to this amendment, PC-503 authorized commingling of Blinebry and Drinkard production only.

DONE at Santa Fe, New Mexico, on this 25th day of November, 1975.
