Mr. J. D. Ramey
N. M. Oil Conservation Commission
P. O. Box 2088
Santa Fe, New Mexico 87501

Dear Sir:

Permission is hereby requested to remove the metering equipment from the Drinkard zone on our Harry Leonard (NCT-C) commingled tank battery, PC-512.

This equipment was recently installed after completing well No. 14 as a top-allowable well; however, all wells have now declined to less than top allowable.

The following tabulations show the daily production for each well for March 1976:

<u>Lease and Well Number</u>	<u>Pool</u>	<u>BOPD</u>
Harry Leonard (NCT-C) #13	Drinkard	10
Harry Leonard (NCT-C) #14	Drinkard	76
Harry Leonard (NCT-C) #15	Drinkard	67

Your early consideration will be appreciated.

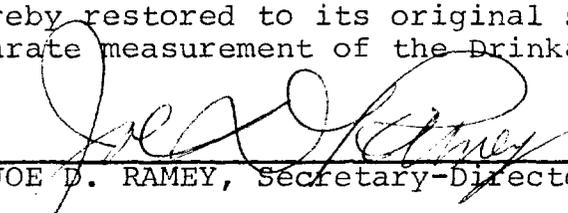

Yours very truly,

C. D. BORLAND

RDNo:ec

Administrative Order PC-512 is hereby restored to its original status to permit commingling without separate measurement of the Drinkard production.

Dear Sir:

Permission is hereby requested to remove the metering equipment from the Drinkard zone on our Harry Leonard (NCT-C) commingled tank battery, PC-512.

This equipment was recently installed after completing well No. 14 as a top allowable well; however, all wells have now declined to less than top allowable. Production would be allocated based on periodic well test.

The following tabulations show the daily production for each well for February, 1976:

<u>Lease and Well No.</u>	<u>Pool</u>	<u>BOPD</u>
Harry Leonard (NCT-C) No. 14	Drinkard	104
Harry Leonard (NCT-C) No. 15	Drinkard	46
Harry Leonard (NCT-C) No. 17	Drinkard	13

Your early consideration will be appreciated.

Yours truly,

C. D. BORLAND
