Battery, Sec. 4-T22S-R37E,  
Lea County, New Mexico,  
Proposed Surface Commingling  
of Production from the Blinebry  
and Paddock Pools

Mr. Joe D. Ramey  
Energy and Minerals Department  
Oil Conservation Division  
P. O. Box 2088  
Santa Fe, New Mexico 87501

Dear Sir:

In order to avoid considerable expense in constructing and maintaining a new tank battery for the subject lease, Gulf hereby seeks an amendment to Administrative Order PC-513. This amendment will allow Gulf to surface commingle Blinebry Oil from E. A. Sticher Well No. 2 with Paddock Oil from E. A. Sticher Well No. 3. All wells will be tested periodically for allocation of production.

The attached tabulation shows the volumes, gravities and monetary values of the liquid hydrocarbons from individual pools, as well as commingled production. The tabulation also shows total average daily production for a 2 month period and the results of recent production tests for the new completion.

The calculated revenue from the commingled production is approximately 20 cents per day more than the total revenue from the individual pools.

Also attached is a schematic diagram of the storage facilities for the commingled production and a lease plat. Shell Pipeline Corporation has agreed to purchase the commingled production as proposed herein.

The commingling proposal is in the interest of conservation in that it prevents unnecessary waste and production expense.

Yours very truly,

  
R. C. ANDERSON
