Re: Commingling Z Taylor Lease

Gentlemen:

We would like permission to commingle the crude oil produced from two separate zones on the same lease.

The zones are:

Wolfcamp - with 42.2 gravity oil

Devonian - with 46. gravity oil

The price per barrel of oil from each zone is the same; presently \$12.75.

The volume produced from each zone is:

Approximately 900 from Wolfcamp per month

Approximately 600 from Devonian per month

Estimated gravity of commingled oil is 44 gravity.

The price of commingled oil is \$12.75 per barrel.

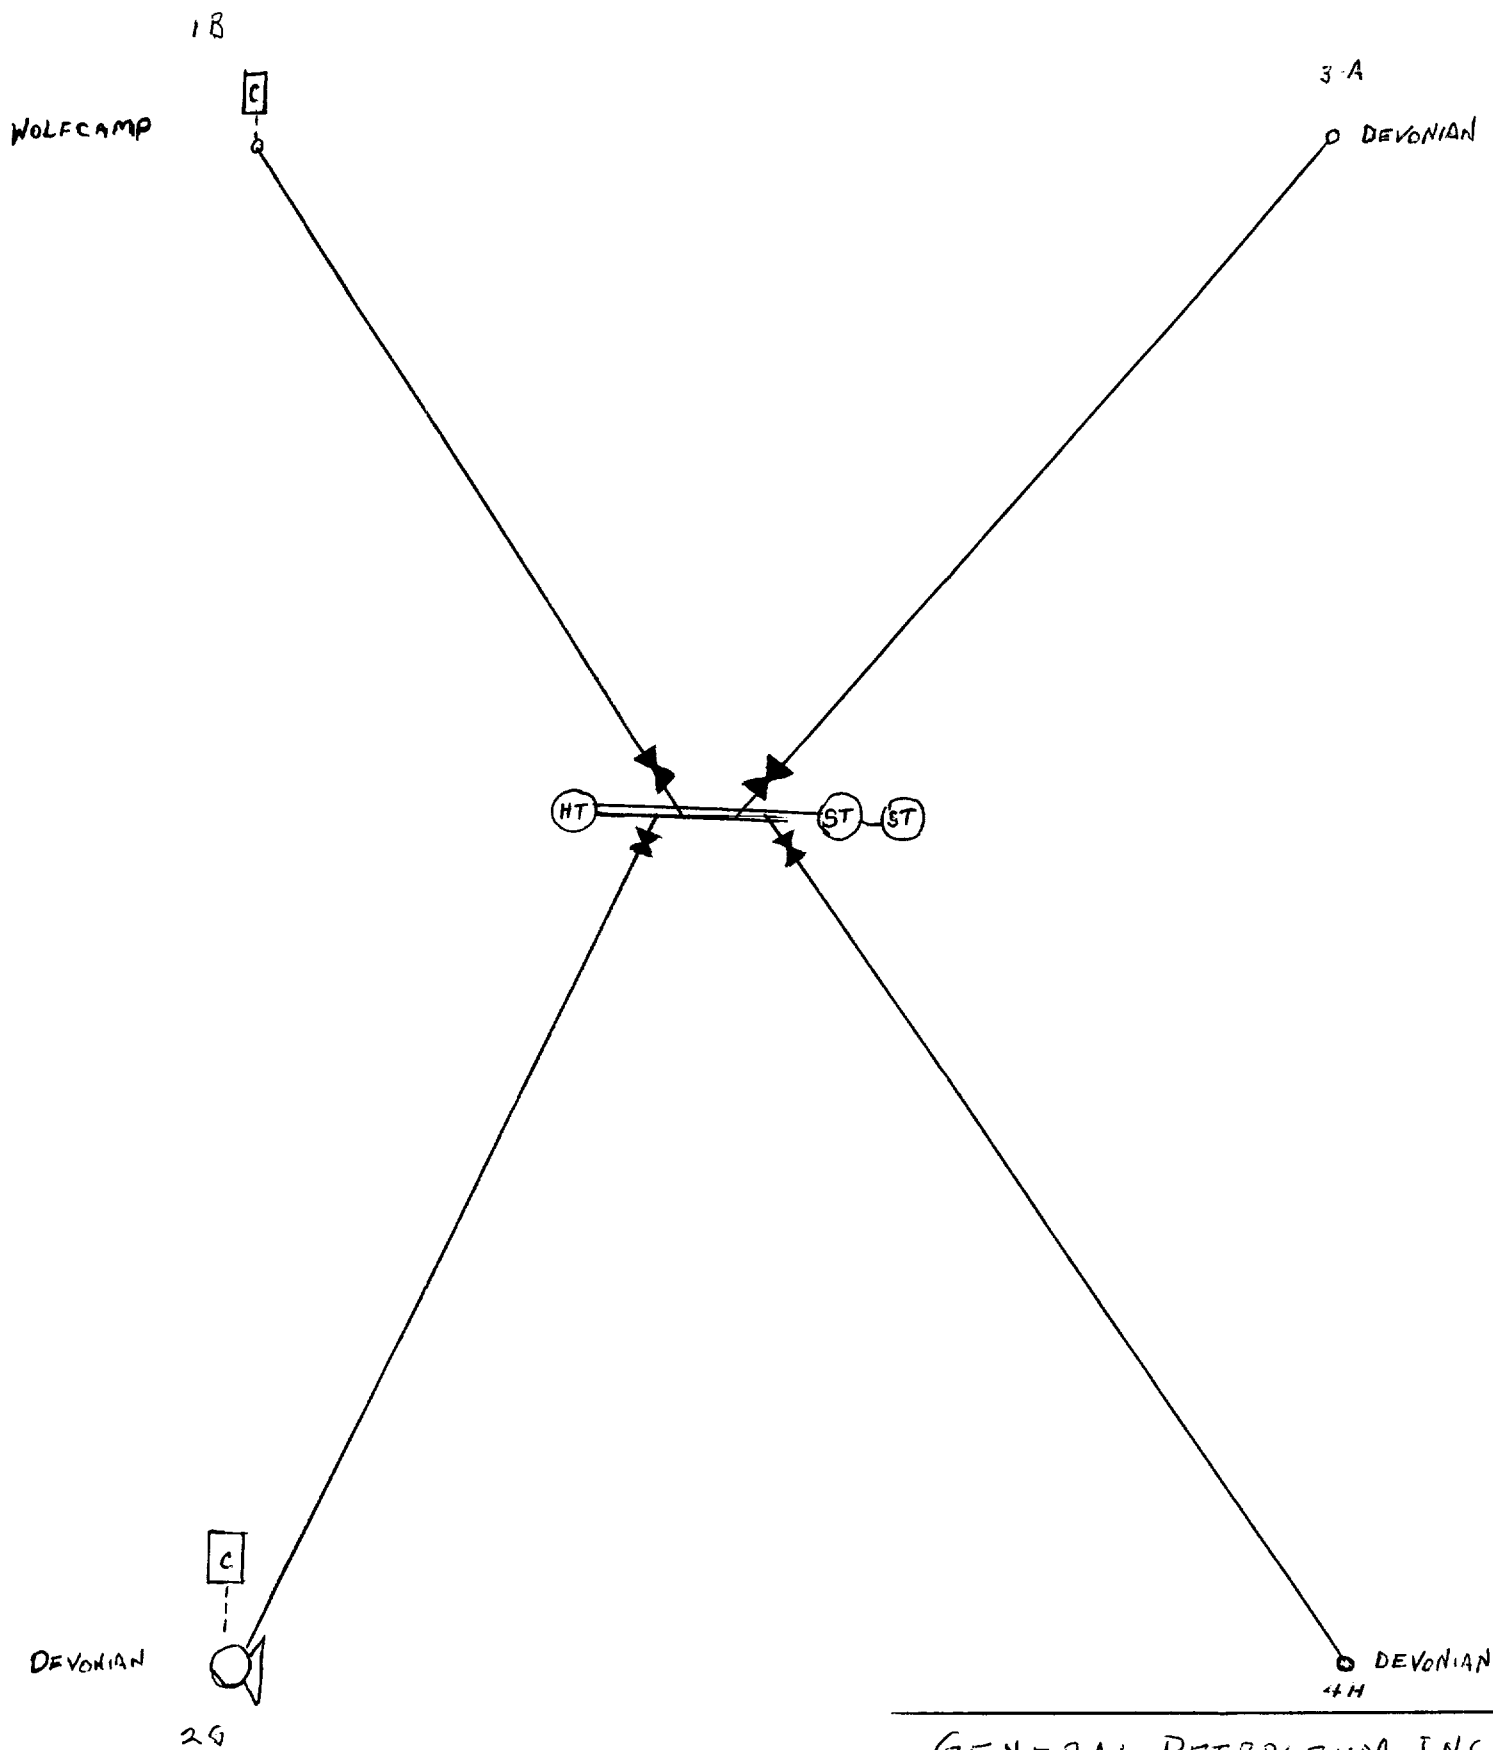

Attached is a Plat showing all well locations and zones produced from.

Very truly yours,

George Graham
