Attention: Mr. Dan Nutter

Gentlemen:

Request for Approval to Surface Commingle Production from the Blinebry Oil & Gas Zone with Production from the Warren Tubb Oil Zone on the Burger B-20 Lease

Permission is requested to commingle production from the Blinebry Oil & Gas zone with production from the Warren Tubb Oil zone on the Burger B-20 Lease, Section 20, Township 20-S, Range 38-E, Lea County, New Mexico. Ownership and Working Interest for both zones is common. The quality of the crude oil is virtually identical. Therefore, no reduction in the value of the oil will occur because of commingling. The value of the production is as follows:

<u>Zone</u>	<u>Oil Gravity</u>	<u>Volume in BOPD per Formation¹</u>	<u>Value per Barrel</u>
Blinebry Oil & Gas	37.6 ⁰	60	\$32.75
Warren Tubb Oil	37.4 ⁰	60	32.75

Currently, the lease has one producing well which is dually completed, one well being dually completing and plans are to drill and dually complete one additional well. This will be the extent of development for the lease.

¹Volume is based upon anticipated production once current development plans for the lease are completed.

Page Two

A lease plat and battery schematic are attached for your review and file. Production will be allocated by use of well tests through a test heater treater.

Yours very truly,

A handwritten signature in cursive script that reads "John R. Kemp". The signature is written in black ink and is positioned below the typed name.
