P. O. Box 2088
Santa Fe, NM 88501

Attention Mr. Gilbert Quintana

Gentlemen:

Surface Commingling Lockhart B-13A Battery, Lea County, New Mexico

Conoco respectfully requests that commingling order PC-639 be amended to authorize the commingling of Tubb pool production with the Blinebry Oil and Gas, Wantz Abo and Drinkard pools at the subject battery.

Production data for the above pools is as follows:

<u>POOL</u>	<u>BOPD</u>	<u>BWPD</u>	<u>MCFPD</u>	<u>GRAVITY</u>	<u>VALUE</u>
Tubb	26	16	32	34.3°	\$26.50
Blinebry	16	4	184	38.7°	\$26.67
Wantz Abo	19	2	30	38.7°	\$26.67
Drinkard	6	38	10	38.7°	\$26.67

As shown above, the value of the commingled production will not be significantly reduced. There are no differing interests involved on this lease or between pools; thus, production will be allocated on the basis of well tests.

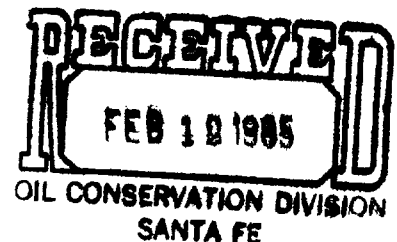

Attached is a battery schematic and a lease plat. A separate application has been submitted to the Bureau of Land Management for their approval of this commingling.

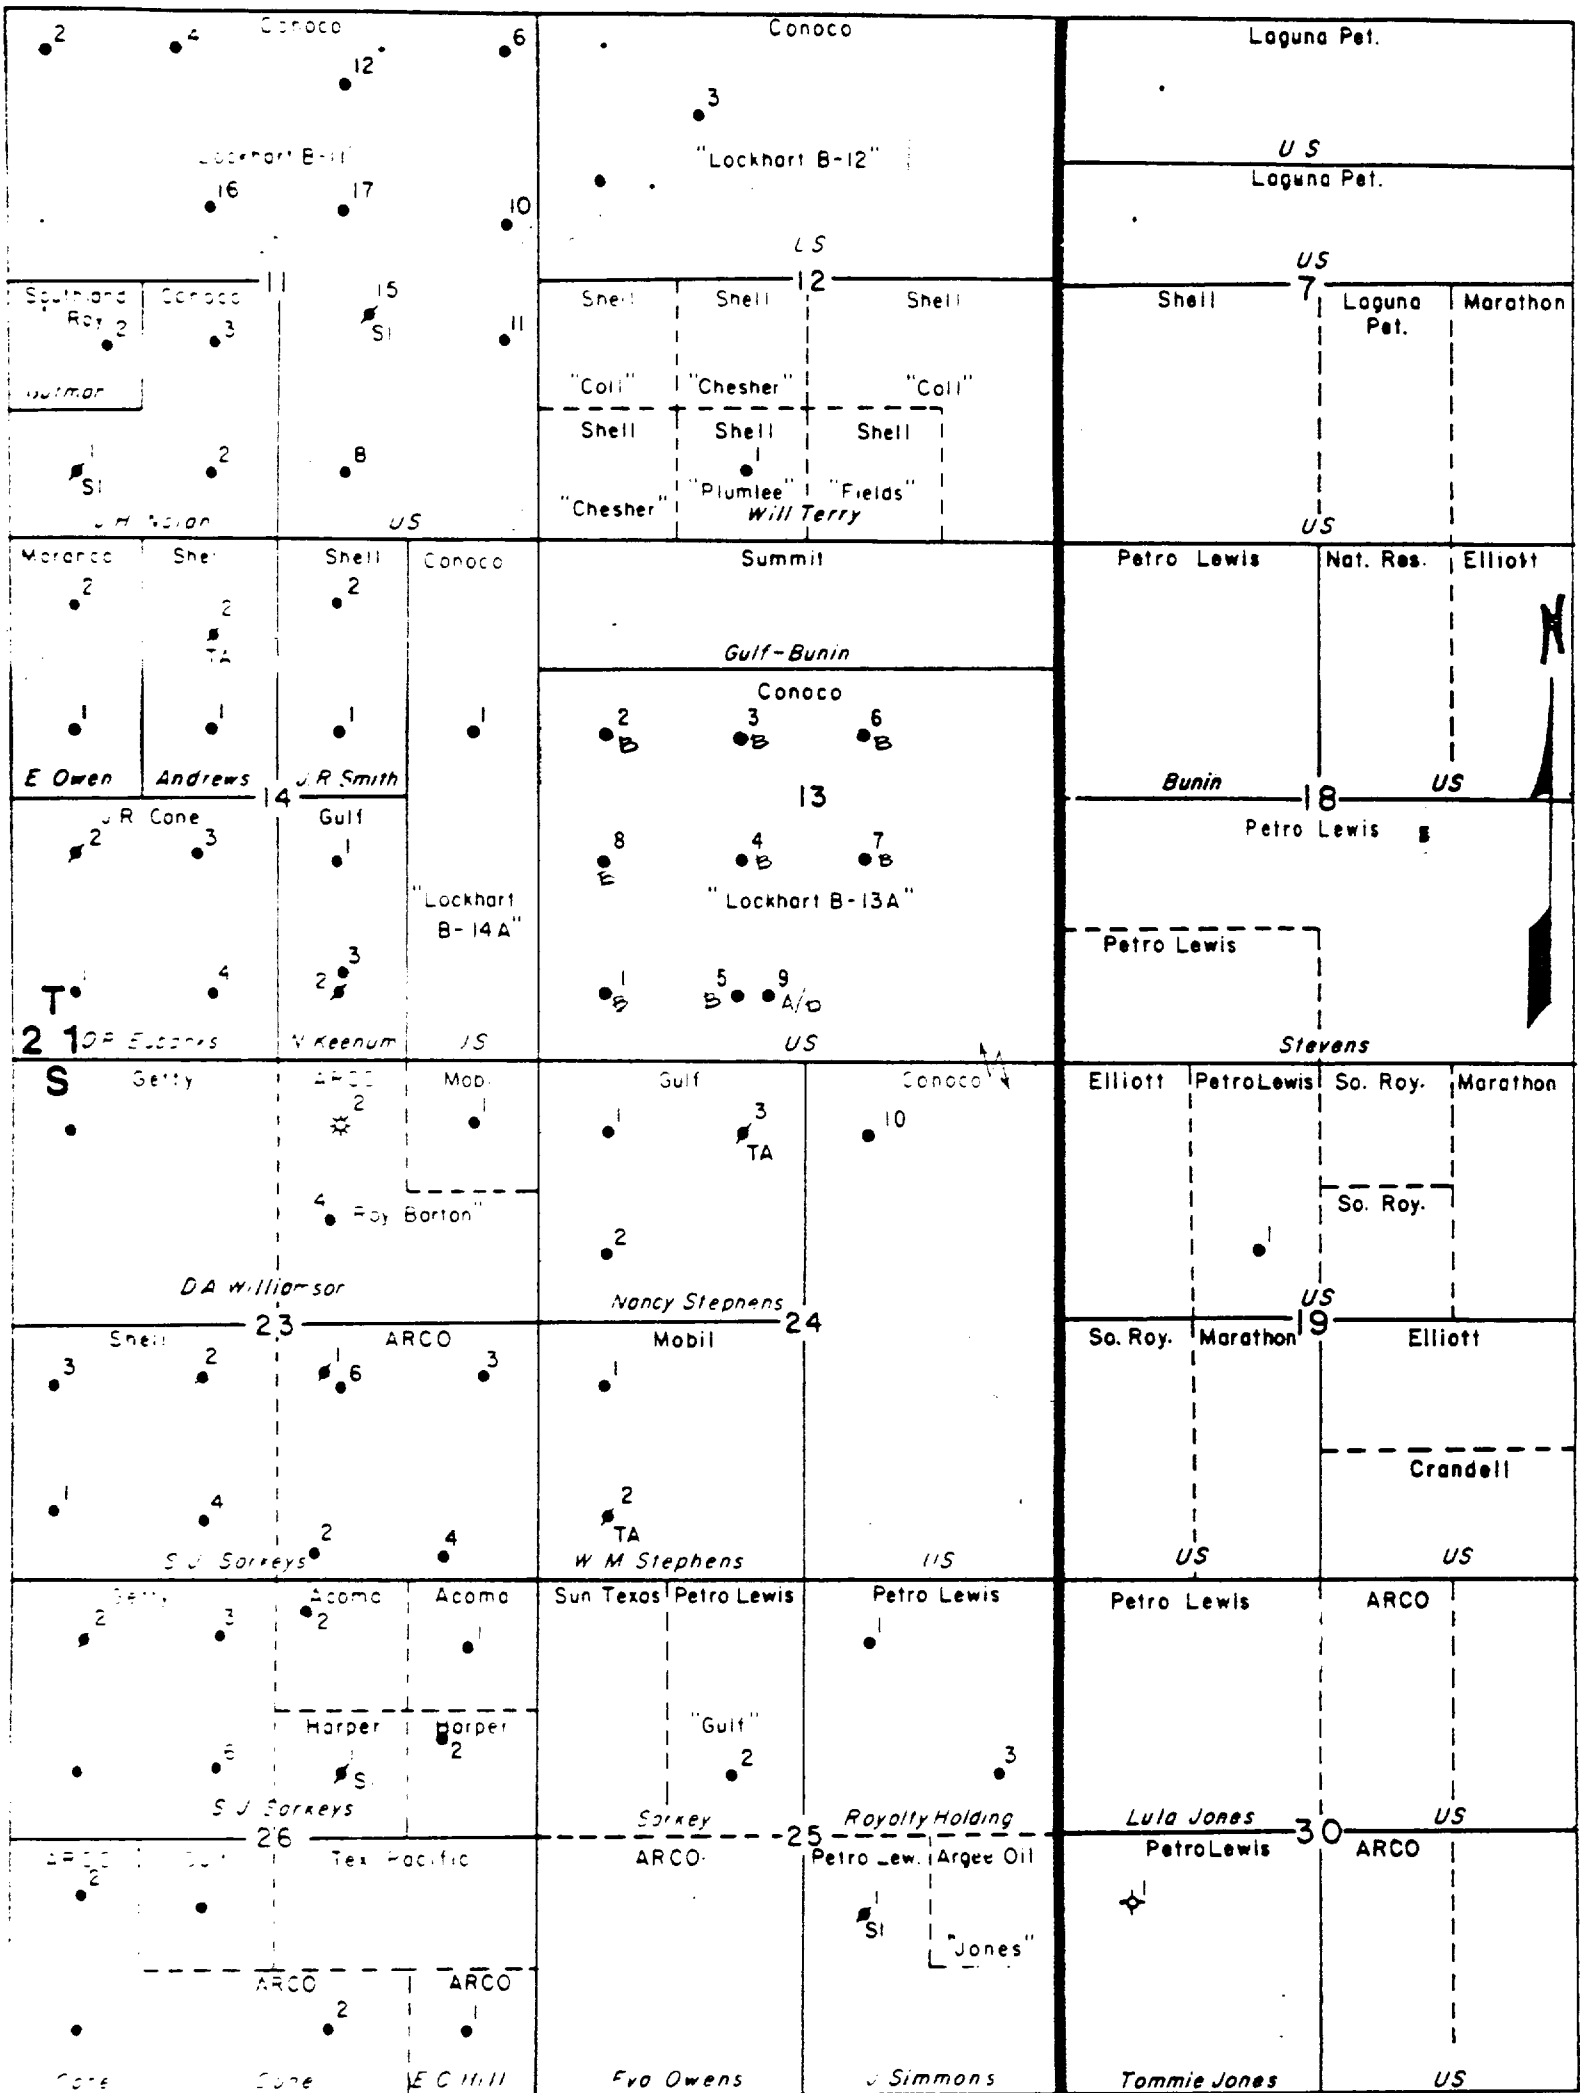

Initial Tubb production will be from the Lockhart B-13A No. 9, Unit N, Section 13, T-21S, R-37E.

If you have any questions, please contact Jimmy D. Carlile of this office.

Yours very truly,

JDC:jr
