Attention: Gilbert Quintana

Gentlemen:

Surface commingling Lockhart B-13A battery, Lea County, New Mexico

Conoco respectfully requests that commingling order PC-639 be amended to authorize the commingling of Drinkard pool production with the Blinebry Oil and Gas and the Wantz Abo pools at the subject battery.

Production data for the above pools is as follows:

	<u>BOPD</u>	<u>BWPD</u>	<u>MCFPD</u>	<u>GRAVITY</u>	<u>VALUE</u>	<u>DATE</u>
Drinkard	9	5	10	38.4°	\$29.96	December 2, 1983
Wantz Abo	20	0	47	40.4°	\$30.00	November 1, 1983
Blinebry	20	7	234	39.5°	\$29.98	November (Tot. mo. daily avg.)

As shown by the above prices, the value of the commingled production will not be significantly reduced. There are no differing interests involved on this lease or between pools; thus, production will be allocated on the basis of well tests.

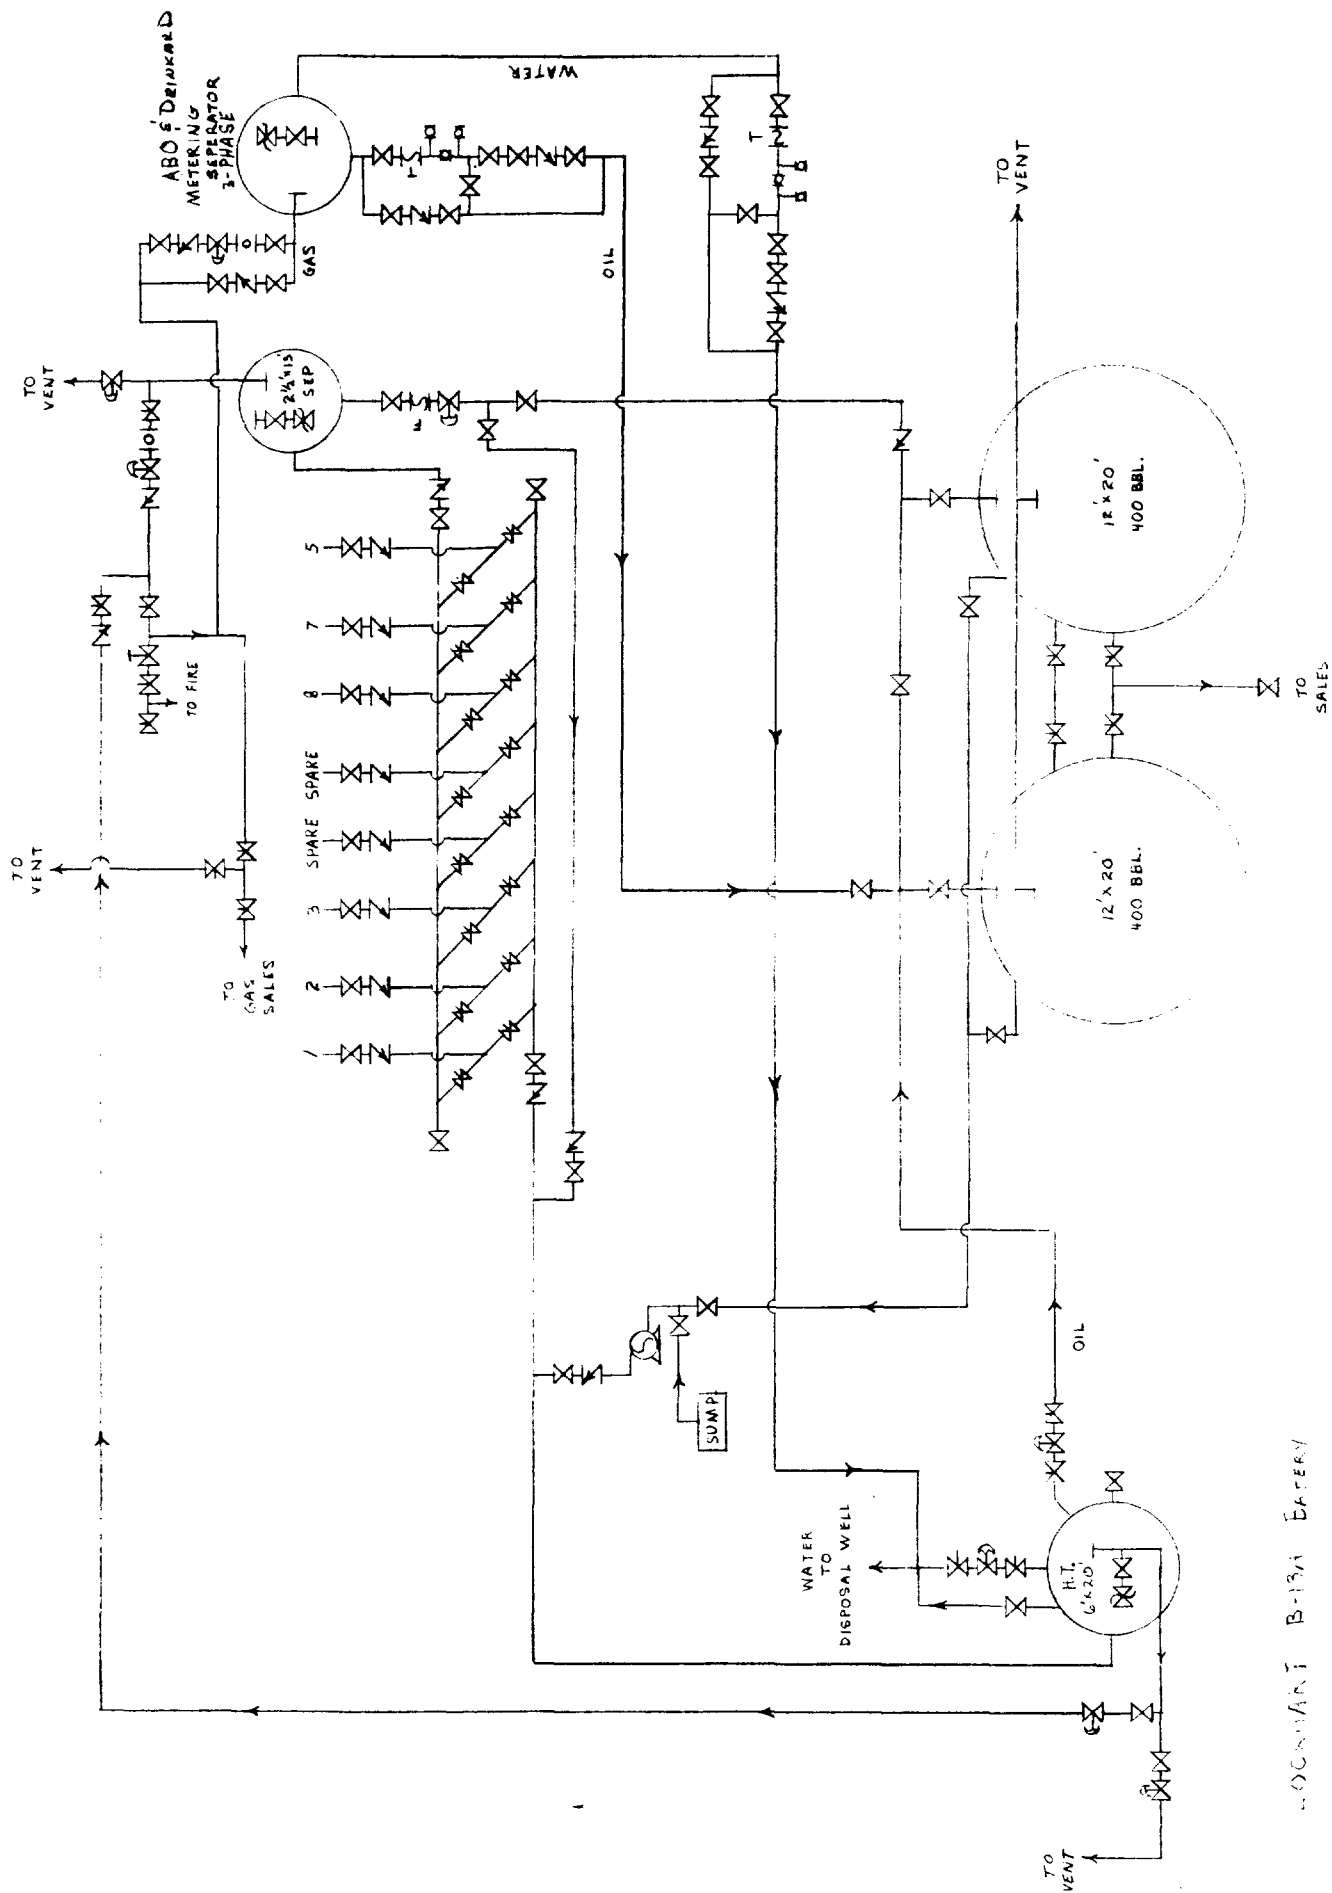

We have attached a battery schematic, lease plat, and a copy of the Bureau of Land Management's approval for this commingling.

Initial Drinkard production will be from the Lockhart B-13A No. 9, Unit N, Section 13-21S-37E, which we propose to downhole commingle. Our application for downhole commingling this well was submitted separately January 5, 1984.

If you should have any questions, please contact Danny Powell of this office.

Yours very truly,

Gentlemen:

Surface Commingling Lockhart B-13A, Lease No. LC-032096 b, Lea County, New Mexico

Conoco respectfully requests approval to surface commingle Wantz Abo and Drinkard production with the existing Blinebry Oil and Gas production from the subject lease. Additional data relative to this application is as follows:

1. Attached is a lease plat and battery schematic.
2. Current 9-329's are enclosed to show existing Blinebry production. Initial Wantz Abo and Drinkard production will be from the recently completed Lockhart B-13A No. 9. Tests from this well are:

	BOPD	BWPD	MCFG	DATE
Wantz Abo	20	0	47	11-1-83
Drinkard	9	5	10	12-2-83

3. There are no differing interests involved on this lease or between pools; therefore, production will be allocated on the basis of well tests. Federal royalties will not be reduced by this commingling.
4. By copy of this letter we are notifying all other working interest owners of this proposed commingling.

If you have any questions please contact Danny Powell of this office. Thank you for your prompt review of this application so that we may also file with the New Mexico Oil Conservation Division.

Yours very truly,

Mark K. Mosley
