Re: Exception to Statewide Rule 303A  
Surface Commingling  
Eva Owens Lease  
Well No. 1/Blinbry - Tubb  
Well No. 2/Drinkard

Mr. Ramey,

Sun Exploration and Production Company requests administrative approval to surface commingle fluids. Each well will be metered separately for gas. Allocation for oil well will be determined by well test.

Eva Owens	#1	#2
Oil	11	11
Water	2	4
Gas	321	225
Choke size		17/64
T TP		280
Status	Pumping	Flowing

The commingling of these fluids will not result in loss of the valves of the production. A schematic diagram of the battery installation and plat showing location of the two wells are attached.

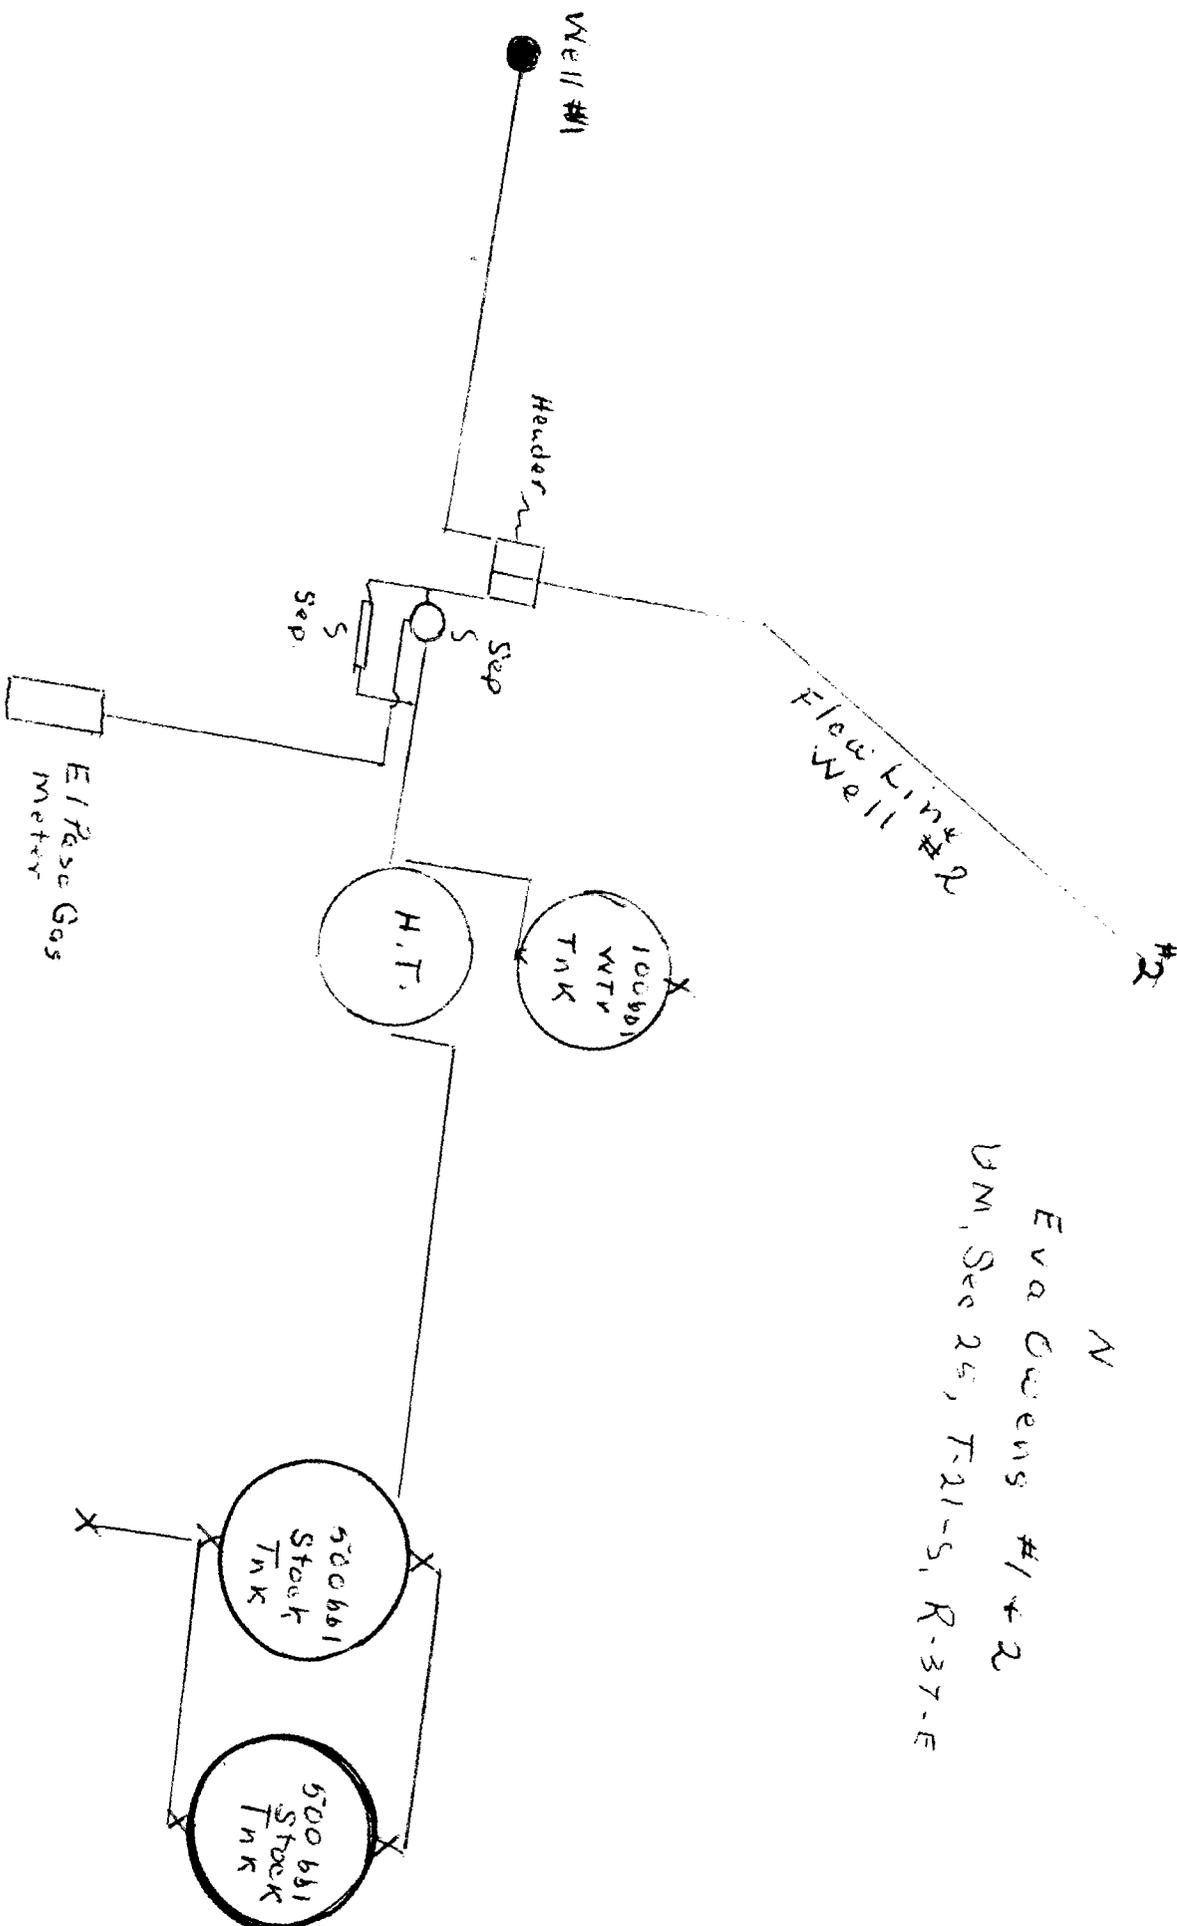

If you have any questions, please contact me at (915) 688-0374.

Very truly yours,

Dee Ann Kemp  
Senior Accounting Assistant
