Re: State Land 76 Lease
Well No. 3
North Anderson Ranch Wolfcamp
Unit Ltr. I, Sec. 2, T-16-S, R-32-E
Lea County, New Mexico

Dear Mr. Catanach:

Sun Exploration and Production Company received approval to surface commingle the North Anderson Ranch-Wolfcamp and the North Anderson Ranch-Cisco Canyon pools into a common tank battery on the State Land 76 lease. The commingling order PC-706 states that the NMOCC in Santa Fe be notified of any well in the commingled battery that is capable of top allowable.

This letter is notification that the referenced well is a top allowable well and is being commingled into the battery per Order PC-706. If you have any questions or need additional information, please contact me at (915) 688-0374.

Yours truly,

A handwritten signature in black ink that reads "Dee Ann Kemp". The signature is written in a cursive, flowing style.

Dee Ann Kemp
Associate Accountant
