7.01 COMMINGLING ORDER PC-717

Dear Sir:

The above referenced commingling order authorizes Mobil Producing TX & NM Inc. (MPTM) to commingle production from the Penrose Skelly Grayburg, Paddock and Cary Montoya pools. The Cary Montoya was capable of producing at top allowable and was therefore to be metered separately, whereas the other pools are allocated based on well tests.

The wells MPTM has in the Cary Montoya pool are no longer producing at top allowable. We therefore request that the permit be changed to allow the production from the three pools to be allocated based on well tests.

Attached, for your review, are copies of the C-115's for September, October and November, 1987 reflecting the past production history of this pool. If you require any additional information, please contact the undersigned at (713) 871-5420.

Yours very truly,

Nancy Lewis
Accounting Analyst
