RE: Request to Surface
Commingled Oil
(Brunson-Drinkard-Abo. S.)
and (Blinbry Oil) Pools
A. M. Drinkard Lease
NE/4 SW/4 Section 30,
T-22-S, R-38-E, Lea
County, New Mexico

Gentlemen:

John H. Hendrix Corporation is the operator of the A. M. Drinkard Lease. Well No. 2 is a Brunson-Drinkard-Abo, South well, while well No. 1 has been recompleted from the Brunson-Drinkard-Abo, South to Blinbry Oil.

It is requested that we be permitted to surface commingle the oil and gas from the Brunson-Drinkard-Abo, South and Blinbry Pools on the A. M. Drinkard Lease and allocate between the pools on the basis of quarterly well tests. The combined oil rates are less than top allowable for either zone. Gas production for each pool is also below top allowable.

The actual commercial value of the commingled production will not be less than the sum of the values of the production sold separately. Working and royalty interest are the same in each pool. In support of this proposal, we are attaching the following:

RECEIVED

JUL 20 1989

OIL CONSERVATION DIV.
SANTA FE

N.M.O.C.D.

-2-

July 18, 1989

1. Table I showing the producing rates, gravity and classification of oil.
2. A plot of the proposed facilities to commingle the two pools.
3. A lease showing the location of the lease and two wells.

Your favorable consideration of this proposal will be appreciated. If you have questions please call me (915) 684-6631.

Yours very truly,

Ronnie H. Westbrook
Vice-President

RHW/ah
