Re: Surface Commingle Request
Shinnery Federal Lease
Lea County, NM

Dear Mr. Catanach:

The Shinnery Federal No. 1 was recently plugged back and completed in the South Corbin (Wolfcamp). We are requesting this permit to surface commingle at the Shinnery Federal No. 5 battery to avoid the need for additional tank battery facilities and operation. When approved, Meridian will be able to use the existing facilities at the No. 5 battery.

By copy of this letter, I am requesting Mr. Shannon Shaw, BLM-Carlsbad, to review the information and, if he concurs with our request, to so advise you.

If other information is needed, please contact David Cook at 915/686-5600.

Connie L. Malik
