AMENDMENT
Administrative Order PLC-6

Gentlemen:

Reference is made to your letter dated January 22, 1964, wherein you requested an amendment to Administrative Order PLC-6, which order authorized the commingling of San Andres and Paddock production from your State A, State B, State F, and State H Leases, Vacuum Field, Lea County, New Mexico, after separately metering the Paddock production and determining the San Andres production by means of the subtraction method.

It is our understanding that you now plan to separate the State H Lease production from the aforesaid commingling installation and therefore request that the above-mentioned order be amended to delete the State H Lease therefrom.

Administrative Order PLC-6 is hereby amended to delete the State H Lease from the commingling authority granted therein.

Very truly yours,

A. L. PORTER, JR.
Secretary-Director

January 22, 1964

Subject: Commingling - San Andres and
Paddock Zones, State A, B, F
and H Leases, Vacuum Field

New Mexico Oil Conservation Commission
P. O. Box 871
Santa Fe, New Mexico

Gentlemen:

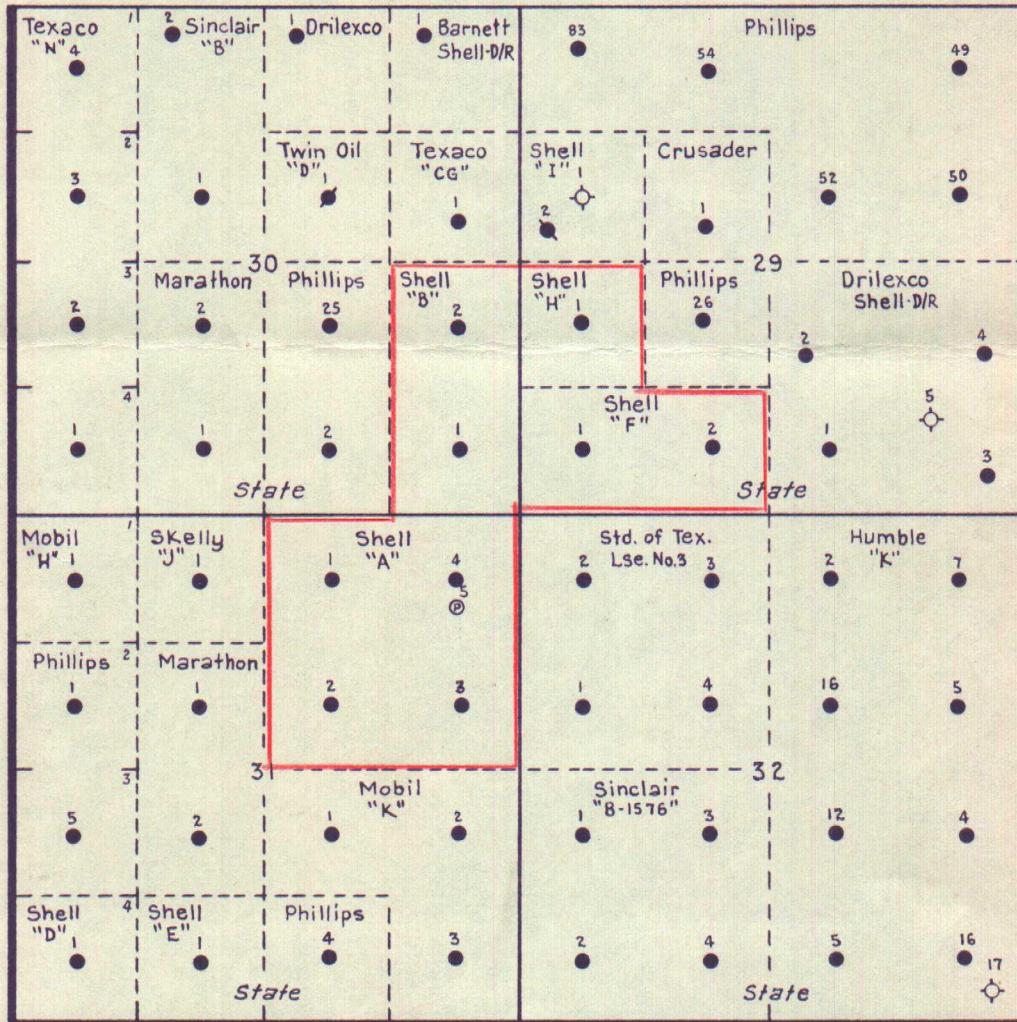

Reference is made to Order No. R-1920-A granting permission to commingle San Andres production from Shell's State A, B, F and H Leases, Vacuum Field and Administrative Order No. PLC-6 granting permission to commingle Paddock and San Andres Crude from these same leases (refer to enclosed plat for legal location).

We plan to separate the State "H" Lease from this commingled installation and request that the above mentioned orders be amended to reflect such a change. Henceforth all production from the State "H" Lease will be stored and sold from separate facilities located on this lease. Commingling of the Paddock and San Andres Crudes on the State A, B and F Leases will be conducted as specified in the aforementioned orders.

Yours very truly,

T. H. Dwyer
Division Production Manager
