APPLICATION OF MESA PETROLEUM CO FOR  
COMMINGLING PRODUCTION FROM SEPARATE  
LEASES AND FROM SEPARATE POOLS (STRAWN  
AND WOLFCAMP) AT THE HILBURN BATTERY  
LOCATED IN UNIT E, SEC 13, T16S, R35E  
LEA COUNTY, NEW MEXICO IN ACCORDANCE WITH  
RULE 303-B AND RULE 309-B

Mesa Petroleum Co hereby makes application for commingling production from two separate pools on three separate leases at its Hilburn Battery, which is located in Unit E, Sec 13, T16S, R35E, Lea County, New Mexico. The three wells and zones of production are:

WELL	LOCATION	PRODUCTION INTERVAL (AND POOL)
Hilburn	E-13-16-35	11289'---11356' (Strawn-Shoe Bar, North)
Lister	G-13-16-35	11336'---11386' (Strawn-Shoe Bar, North)
Wiser	L-13-16-35	10248'---10256' (Wolfcamp-Shoe Bar, North)

The Wiser #1 was originally completed in the Strawn selectively from 11,284' to 11,332'. Permission had been received (CTB-249) to commingle these Strawn wells on August 9, 1974. The Wiser #1 was recompleted from the Strawn to the Wolfcamp in November, 1977. Existing flowlines, separation and metering equipment can be utilized without change.

Production from each lease will be metered separately as depicted by the schematic diagram of the commingling facility. Also attached is a plat of the leases indicating the location for the commingling battery with respect to the two Strawn and one Wolfcamp well.

There are numerous royalty interest owners. Each royalty interest owner has been notified by certified mail, this date, of our commingling plans. A list of these royalty interest owners is attached.

*Installation must be revised from schematic attached hereto. Talked to Mike Houston about this 1/20/78.*

APPLICATION FOR COMMINGLING

December 14, 1977

Page 2

The commingled production would have the same commercial value as the summation of values from each pool. The posted price for both Strawn and Wolfcamp oil bases upon gravities, is identical.

<u>WELL</u>	<u>POOL</u>	<u>GRAVITY</u>	<u>EXPECTED VOLUME</u>	<u>PRICE/BBL</u>	
Hilburn #1	Strawn	42.8	85 BPD	12.43	1056.55
Lister #1	Strawn	43.1	16	12.43	198.88
Wiser #1	Wolfcamp	40.2	80	12.43	994.40
Commingling Totals		41.7 (weighted avg)	181	12.43/bbl	2249.83

Koch Oil Company is the purchaser of crude oil from all three wells and has no objection to commingling production. A copy of their waiver is attached. Tipperary Corporation is the gas purchaser. Gas will continue to be measured at individual meters prior to entering the sales line.

Sincerely yours,

*Michael P. Houston*

Gentlemen:

This is to advise that Koch Oil Company has no objection to the commingling of the Wolfcamp production produced from Mesa Petroleum Company's #1 Wiser in Section 13-16s-35e into the existing Strawn Hilburn and Lister commingling battery in Section 13-16s-35e, Lea County, New Mexico.

Yours very truly,

  
Jim Welty

JWW/dmb
