May 12, 1994

Mr. David Catanach
Oil Conservation Division
P.O. Box 2088
Santa Fe, New Mexico 87504

**RE: Request for Diagrams on Application to Commingle
Red Tank Federal Lease to the Checkerboard 23 Federal Lease
Lea County, New Mexico**

Mr. Catanach:

As per your request, please find attached the diagrams on the above referenced leases.

Regarding the Red Tank Federal Lease. A satellite will be placed prior to any production leaving the lease. A gas sales lines will be located at the satellite and all the gas from the Red Tank Lease will be sold at a separate Point of Delivery than the Checkerboard. The oil will flow thru a line to the test vessels located at the satellite and this is where allocation will be done. The oil will actually be sold thru the lact unit at the Checkerboard 23 Federal battery.

Should you have any questions, please contact me at 915-688-6943.

Sincerely,

Donna J. Williams
Production Assistant
