Re: Inclusion of two additional gas wells within an existing 240-acre non-standard gas spacing and proration unit in the Bluit San Andres Associated Pool comprising the W/2 NW/4 and the SW/4 of Section 18, T8S, R38E, Roosevelt County, NM

Dear Mr. Stogner:

A letter to Pure Resources LP, offset operator to the Bluit SA 18 Federal #12 (unit L) and Bluit SA 18 Federal #14 (unit N) was mailed February 1, 2001 requesting approval to include these two additional wells within the 240-acre non-standard proration unit in Section 18. More than 45 days have passed and no objections have been received. In fact, I just this morning received a telephone call from Pure stating they had no objections to Saga's request for administrative approval to simultaneously dedicate more than one well to the non-standard proration unit.

Saga respectfully requests administrative approval is granted to include well numbers 12 and 14 in the 240-acre non-standard proration unit, thereby having 4 wells simultaneously dedicated to same.

Very truly yours,

SAGA PETROLEUM LLC

Re: Offset Operator to the  
Bluitt SA 18 Federal #12 (Unit L),  
Bluitt SA 18 Federal #14 (Unit N)  
Sec. 18, T8S, R37E  
Roosevelt County, NM

Gentlemen:

Saga Petroleum LLC has recently recompleted the referenced wells as P<sub>1</sub> San Andres gas producers. These wells are unorthodox pursuant to Rule 2 (b) of the Special Rules and Regulations for the Bluitt-San Andres Associated Pool. Saga proposes to include the gas wells within an existing non-standard 240-acre gas spacing and proration unit in the Bluitt San Andres Associated Pool comprising the W/2 NW/4 and SW/4 of Section 18, Township 8 South, Range 37 East, NMPM, Roosevelt County, NM. Administrative approval forming a non-standard 240-acre proration unit was granted in 1994 to Plains Petroleum Operating Company, the previous operator/owner, to simultaneously dedicate wells number 5 and 11. Saga now proposes to simultaneously dedicate wells number 5, 11, 12 & 14 to the W/2 NW/4 and SW/4 of Section 18. No individual well is capable of producing the reduced allowable of 900 MCF a day. Wells 5, 11, 12 & 14 produce an average of 225 MCF/day, well under the 900 MCFD allowable.

Please sign in the appropriate space your election to agree or not agree to Saga's request for administrative approval to simultaneously dedicate more than one well to an existing reduced 240-acre proration unit.

Yours very truly,

SAGA PETROLEUM LLC

Re: *The inclusion of two additional gas wells within an existing 240-acre non-standard gas spacing and proration unit in the Bluitt-San Andres Associated Pool comprising the W/2 NW/4 and the SW/4 of Section 18, Township 8 South, Range 38 East, NMPM, Roosevelt County, New Mexico.*

Dear Ms. Husband:

My review of your letter dated October 25, 2000 concerning Saga's proposal to include the Bluitt SA "18" Federal Wells No. 12 and 14 into the subject 240-acre non-standard gas spacing and proration unit approved by Division Administrative Order NSP-1682-A (L) (SD), dated April 6, 1995, indicates that both wells are unorthodox pursuant to **Rule 2 (b)** of the "*Special Rules and Regulations for the Bluitt-San Andres Associated Pool*," as promulgated by Division Order No. R-5353, as amended. Therefore, an application with adequate notification will be required pursuant to **Rule 2 (c)** of the "*General Rules and Regulations for the Associated Oil and Gas Pools of Northwest and Southeast New Mexico/Special Rules and Regulations for the Bluitt-San Andres Associated Pool*," also set forth in Division Order No. R-5353, as amended.

Sincerely,

Michael E. Stogner

Re: Bluit SA 18 Federal #12 & #14  
Sec. 18, T8S, R38E  
Bluit SA 13 Federal #14  
Sec. 13, T8S, R37E  
Roosevelt County, NM

Gentlemen:

Administrative approval to form a non-standard 240-acre gas spacing and proration unit comprising the W/2 NW/4 and SW/4 of Section 18, T8S, R38E to which both the Bluit 18 Federal Well Nos. 5 and 11 were simultaneously dedicated was granted to Plains Petroleum Operating Company. Saga Petroleum LLC became the operator of these wells March 1, 2000 and has recently recompleted two shut-in P<sub>2</sub> San Andres wells to the P<sub>1</sub> San Andres as gas wells. Saga respectfully requests Well Nos 12 & 14 be included in the non-standard proration unit, thereby having 4 wells simultaneously dedicated to same. Form C-102 is enclosed with each well spotted in the correct unit letter of Section 18.

Plains Petroleum Operating Company, to which both the Bluit 13 Federal Well Nos 15 and 11 were simultaneously dedicated, formed a standard 320-acre gas spacing and proration unit comprising the S/2 of Section 13, T8S, R37E in 1994. Saga Petroleum LLC has recently recompleted the Bluit SA 13 Federal No 14 as a P<sub>1</sub> gas well. At this time, Saga respectfully requests Well No 14 be included in the 320-acre proration unit with well numbers 15 and 11. Form C-102 is enclosed with each well spotted in the correct unit letter of Section 13.

Should you have any questions, please contact the undersigned.

Very truly yours,

SAGA PETROLEUM LLC

Attention: Bonnie Husband

*Administrative Order NSP-1682*

Dear Ms. Husband:

Reference is made to your application dated December 14, 1993 for a 160-acre non-standard gas spacing and proration unit consisting of the following acreage in the Bluit-San Andres Associated Pool:

ROOSEVELT COUNTY, NEW MEXICO  
TOWNSHIP 8 SOUTH, RANGE 38 EAST, NMPM  
Section 18: SW/4

It is my understanding that this unit is to be dedicated to your existing Bluit "18" Federal Well No. 11 located at a standard gas well location 1980 feet from the South and West lines (Unit K) of said Section 18.

By authority granted me under the provisions of Rule 4 (b) of the General Rules and Regulations for the Associated Oil and Gas Pools of Northwest and Southeast New Mexico/Special Rules and Regulations for the Bluit-San Andres Associated Pool, as promulgated by Division Order No. R-5353, as amended, the above non-standard gas spacing and proration unit is hereby approved.

Sincerely,

Handwritten signature of William J. LeMay.

**Attention: Bonnie Husband**

*Administrative Order NSP-1682-A(L)(SD)*

Dear Ms. Husband:

Reference is made to your applications dated May 18, 1994 and June 16, 1994 to increase the acreage of the existing 160-acre non-standard gas spacing and proration unit in the Bluit-San Andres Associated Pool comprising the SW/4 of Section 18, Township 8 South, Range 38 East, NMPM, Roosevelt County, New Mexico, which was approved by Division Administrative Order NSP-1682, dated February 24, 1994, by adding the W/2 NW/4 of said Section 18 to said non-standard gas spacing and proration unit. Said Order NSP-1682 recognized the dedication of the 160-acre unit to the Bluit "18" Federal Well No. 11 (API No. **30-041-20854**), located at a standard gas well location 1980 feet from the South and West lines (Unit K) of said Section 18.

It is our understanding that such acreage expansion can be viewed as prudent development of Bluit-San Andres gas production to include this additional acreage which corresponds to the recompletion of and subsequent classification of its Bluit "18-E" Federal Well No. 5 (API No. **30-041-20176**), located at an unorthodox gas well location 2086 feet from the North line and 554 feet from the West line (Unit E) of said Section 18 as a gas well in the Bluit-San Andres Associated Pool.

By authority granted me under the provisions of **Rule 4(b)** of the "*General Rules and Regulations for the Associated Oil and Gas Pools of Northwest and Southeast New Mexico/Special Rules and Regulations Bluit-San Andres Associated Pool*", as promulgated by Division Order No. R-5353, as amended, the following described 280-acre non-standard gas spacing and proration unit is hereby approved:

Administrative Order NSP-1682-A(L)(SD)  
Plains Petroleum Operating Company  
April 6, 1995  
Page 2

---

ROOSEVELT COUNTY, NEW MEXICO  
TOWNSHIP 8 SOUTH, RANGE 38 EAST, NMPM

Section 18: W/2 NW/4 and SW/4.

Further, under the authority granted me under the provisions of **Rule 2(c)** of said special rules and regulations the resulting unorthodox gas well location for the Bluit "18-E" Federal Well No. 5, as described above, is hereby approved.

The operator of the subject 240-acre unit is further authorized to simultaneously dedicate gas production from the Bluit-San Andres Associated Pool from both the Bluit "18-E" Federal Well No. 5 and Bluit "18" Federal Well No. 11 with allowable to be assigned thereto in accordance with all applicable special rules and regulations based upon the unit size of 280 acres.

Said original Administrative Order NSP-1682 shall be placed in abeyance until further notice.

Sincerely,

William J. LeMay  
Director
