Re: Cozzens #3R
1420'FNL, 2320'FEL Section 20, T-29-N, R-11-W, San Juan County
30-045-not issued

Dear Mr. Stogner:

Burlington Resources is applying for administrative approval of an unorthodox gas well location for the Fulcher Kutz Pictured Cliffs. This location is on the wellpad of the Cozzens #3 (30-045-60269), a plugged and abandoned Pictured Cliffs well located at 1620'FNL, 2390'FEL of Section 20. It is intended to utilize the abandoned wellpad because of the very steep (30% or greater) terrain in the northeast quarter of Section 20 and the presence of houses and a large irrigation ditch. No record of an NSL order for the Carson #3, drilled by Aztec Oil & Gas, can be found either in the Aztec District Office or our wellfiles.

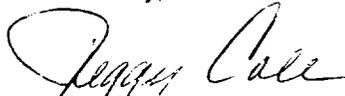

Production from the Pictured Cliffs pool is to be included in a 160 acre gas spacing and proration unit for the northeast quarter (NE/4) in Section 20. Non-standard Proration Order NWU-76 dated May 20, 1956 was issued for the Cozzens #3 for 80 acres (W/2 of the NE/4) and it is our understanding that that order would be considered terminated by the plug and abandonment of the well.

The following attachments are for your review:

- Application for Permit to Drill
- Completed C-102 at referenced location.
- Offset operators/owners plat
- Topographic map

Please let me know if you have any questions about this application.

Sincerely,

Peggy Cole
Regulatory Supervisor
