Re: Application for Unorthodox Location
Jasper "ARJ" Federal #2
Foor Ranch; Precambrian
Sec. 25, T8S-R26E
Chaves County, New Mexico

Dear Mr. Stogner:

Yates Petroleum Corporation respectfully requests administrative approval for an unorthodox Precambrian gas well. The proposed Jasper "ARJ" Federal #2 well is located on federal minerals, 760' FNL and 2240' FEL in Sec. 25, T8S-R26E. The well was surveyed and staked at this location because of the topography; there is drainage on the north, west and south side and archaeology to the east. This is also the best area to intersect the Ordovician dolomite which is anticipated to be structurally higher than the Ordovician in our Jasper "ARJ" #1 in the southeast quarter of this section the Penn Sands and the Abo Sands which are on a northwest to southeast trend that appear to have their greatest accumulation in this part of the section. The offset operator to the north has been notified of this application. The other offset leases are operated by Yates.

Yates Petroleum Corporation requests that this unorthodox location be administratively approved if no objections are received within 20 days.

Enclosed is a copy of form 3160-3, C-102, land plat and copy of notification to offset operators. Please call me at (505) 748-4376 if any other information is needed. Thank you.

Very truly yours,

Subject: RE: Foor Ranch area

The Foor Ranch; Pre-Permian Gas Pool vertical limits cover the T/Cisco all the down to granite wash. I have not been able to find anything in writing about this pool as far as defining vertical limits, however I remember asking Mark Ashley about this one time and he informed me this was the case.

The APDs in 25-8-26 should be Undesignated Foor Ranch; Pre-Permian Gas.

The Pool code would be 76730.

Subject: Foor Ranch area

I need some help please. What is the vertical limits of the Foor Ranch-PrePermian Gas Pool (76730) created by R-7048 in 1982? I also show the name Foor Ranch-Pre Cambrian Gas Pool appears on two APD's in Section 25-T8S-R26E, what is this pool, when was it created, and where can I find it? Thanks.
