NEW MEXICO OIL CONSERVATION DIVISION
 - Engineering Bureau -
 1220 South St. Francis Drive, Santa Fe, NM 87505

ADMINISTRATIVE APPLICATION CHECKLIST

THIS CHECKLIST IS MANDATORY FOR ALL ADMINISTRATIVE APPLICATIONS FOR EXCEPTIONS TO DIVISION RULES AND REGULATIONS WHICH REQUIRE PROCESSING AT THE DIVISION LEVEL IN SANTA FE

Application Acronyms:

[NSL-Non-Standard Location] [NSP-Non-Standard Proration Unit] [SD-Simultaneous Dedication]
[DHC-Downhole Commingling] [CTB-Lease Commingling] [PLC-Pool/Lease Commingling]
[PC-Pool Commingling] [OLS - Off-Lease Storage] [OLM-Off-Lease Measurement]
[WFX-Waterflood Expansion] [PMX-Pressure Maintenance Expansion]
[SWD-Salt Water Disposal] [IPI-Injection Pressure Increase]
[EOR-Qualified Enhanced Oil Recovery Certification] [PPR-Positive Production Response]

[1] TYPE OF APPLICATION - Check Those Which Apply for [A]

[A] Location - Spacing Unit - Simultaneous Dedication
☒ NSL ☐ NSP ☐ SD

Check One Only for [B] or [C]

[B] Commingling - Storage - Measurement
☐ DHC ☐ CTB ☐ PLC ☐ PC ☐ OLS ☐ OLM

[C] Injection - Disposal - Pressure Increase - Enhanced Oil Recovery
☐ WFX ☐ PMX ☐ SWD ☐ IPI ☐ EOR ☐ PPR

[D] Other: Specify _____

[2] NOTIFICATION REQUIRED TO: - Check Those Which Apply, or ☒ Does Not Apply

- [A] ☐ Working, Royalty or Overriding Royalty Interest Owners
- [B] ☐ Offset Operators, Leaseholders or Surface Owner
- [C] ☐ Application is One Which Requires Published Legal Notice
- [D] ☐ Notification and/or Concurrent Approval by BLM or SLO
U.S. Bureau of Land Management - Commissioner of Public Lands, State Land Office
- [E] ☐ For all of the above, Proof of Notification or Publication is Attached, and/or,
- [F] ☐ Waivers are Attached

[3] SUBMIT ACCURATE AND COMPLETE INFORMATION REQUIRED TO PROCESS THE TYPE OF APPLICATION INDICATED ABOVE.

[4] CERTIFICATION: I hereby certify that the information submitted with this application for administrative approval is **accurate** and **complete** to the best of my knowledge. I also understand that **no action** will be taken on this application until the required information and notifications are submitted to the Division.

Note: Statement must be completed by an individual with managerial and/or supervisory capacity.

1. *Chlorophyll a* (Chl *a*)

the 1990s, the number of people who have died of AIDS in North America has risen to 12,000. The last annual survey of the disease in the United States, released in 1997, found that the number of people with AIDS rose 10 percent in 1996, and that the number of deaths rose 15 percent. In the United Kingdom, 2,500 people died of AIDS in 1996, up from 2,300 in 1995. In the United States, the Bureau of the Census reports that 14,000 people died of AIDS in 1996, up from 12,000 in 1995. The World Health Organization estimates that 1.5 million people died of AIDS in 1996, up from 1.3 million in 1995. The United Nations estimates that 1.5 million people died of AIDS in 1996, up from 1.3 million in 1995. The World Health Organization estimates that 1.5 million people died of AIDS in 1996, up from 1.3 million in 1995.

There is one (1) oil and gas lease that covers all of this section. In the Chacra, Mesaverde and Gallup formations, the present location is standard as to the north and south boundary but non-standard as to the east line. For a standard location to the Chacra, Mesaverde and Gallup, the well would need to be located 660' FEL of the NW/4. This location would be too close to the currently producing Florance #63M well. The Florance #63M well is located 1450' FNL & 1190' FWL of the NW/4, and produces out of the Dakota/Mesaverde formations. Recompleting the Gallup and Chacra in the Florance #63M, which does meet required footage, is not a viable option. Cement was not circulated when the well was drilled in the mid 1960's and the well has been cement squeezed twice. Based on the mechanical integrity of this well, any attempt at recompletion would be considered a high risk.

The standard location for the Chacra, Mesaverde and Gallup would also require over 300' of new road to be built. The Farmington BLM office specifies that no more than 300' of new road can be built on a location. The location that we have requested will (1) minimize surface disturbance by not having to construct additional roads, and (2) maximize the distance from the Florance #63M well and minimize the effects of drainage. The Dakota/Mesaverde are the main target formations for the Florance #63F well. To drill a new well for the Chacra and Gallup formation only would be uneconomical.

XTO Energy Inc. owns 100% working interest in both the 320-acre unit as well as the 160-acre unit. There are no offset operators to notify of this request. The offset quarter sections in this common base lease are either developed, or XTO is currently in the process of developing them with the maximum number of Dakota, Mesaverde and Chacra wells allowed to insure that they are producing their reserves. Based on the above information, XTO would like to request the administrative approval for this unorthodox location. Should you need any additional information please feel free to contact me at (817) 885-2454.

Sincerely,
XTO ENERGY INC.

George A. Cox, CPL

Cross Timbers Oil Company
810 Houston Street - Suite 2000
Fort Worth, Texas 76102-6298
Attention: George A. Cox

Administrative Order NSL-4390

Dear Mr. Cox:

Reference is made to the following: (i) your application dated January 3, 2000; and (ii) the New Mexico Oil Conservation Division's ("Division") records in Santa Fe: all concerning Cross Timbers Oil Company's ("Cross Timbers") request for a non-standard Gallup oil well location for the existing Florance Well No. 68 (API No. 30-045-11782), which was drilled in 1966 by Tenneco Oil Company and completed in the Basin-Dakota Pool at a gas well location considered to be standard at that time 1190 feet from the South line and 2510 feet from the East line (Unit O) of Section 20, Township 27 North, Range 8 West, NMPM, San Juan County, New Mexico.

It is our understanding that Cross Timbers intends to abandon the deeper Dakota gas producing interval and recomplete up-hole into the Gallup formation in order to test for oil production. The location of this well is considered to be unorthodox pursuant to Division Rule 104.B (1). Further, the SW/4 SE/4 of Section 20 is to be dedicated to this well in order to form a standard 40-acre oil spacing and proration unit for wildcat Gallup oil production.

This application has been duly filed under the provisions of Division Rule 104.F, revised by Division Order No. R-11231, issued by the New Mexico Oil Conservation Commission in Case No. 12119 on August 12, 1999.

Further, all of Section 20 is a single Federal lease (United States Government Lease No. NM-03380) in which Cross Timbers is the leasehold operator within the Gallup interval; therefore, there are no effected offsets to the subject 40-acre tract other than Cross Timbers.

By the authority granted me under the provisions of Division Rule 104.F (2), the above-described unorthodox oil well location is hereby approved.

Sincerely,

A handwritten signature in cursive script, reading "Lori Wrotenbery by DK".

Lori Wrotenbery
Director
