Application for Non-Standard Well Location
Sammons Gas Com A Well No. 1M
E/2 Section 06-T31N-R10W
Basin Dakota and Blanco Mesaverde Pools
San Juan County, New Mexico

Amoco Production Company respectfully requests an administrative approval for an non-standard well location for the Sammons Gas Com A Well No. 1M to be drilled at a location of 805' FSL and 2060' FEL of Section 06, T31N-R10W. The non-standard location is necessitated by topographical conditions and would insure the conservation of surface and subsurface resources in the area.

Topographical obstructions within the legal drilling area are sever terrain - rough sloping terrain (side of cliff). To aid in your review attached is a C-102 Well Location Plat showing the well location, a topographical map (APD Map # 1), a 9 section plat showing the offset wells and operators and copy of the Pad Layout which indicates a portion of a ridge extending into the pad location.

Attached is a listing of all offset operators who are being furnished a copy of this application via certified mail return receipt requested.

Your attention to this matter is greatly appreciated. Should you have any questions concerning this application please do not hesitate to call me at 281-366-4491.

Sincerely,

A handwritten signature in cursive script, appearing to read "Mary Corley", is written over the typed name.

OBJECTIVE: To drill the subject well to a total depth of approximately 7230', complete in the Basin Dakota Pool, produce the well for approximately 30 days to establish production rate, then add the Blanco Mesaverde Pool and commingle production downhole.

Application for downhole commingling authority (NMOCD order R-11363) will be submitted to all appropriate parties for approval after production has been established in the Basin Dakota Pool and prior to completion of and downhole commingling with the Blanco Mesaverde.

NOTE: Sever surface terrain forces surface location at approximately 620' from nearest property line. NSL application will be submitted to the Santa Fe office for approval. Please refer to the attachments for further drilling info.
