**RE: Application for Administrative Approval of Unorthodox Well Location
John Charles #6C
1970' FNL & 2450' FEL Section 13, T27N-R9W
San Juan County, NM**

Dear Ms. Wrotenbery:

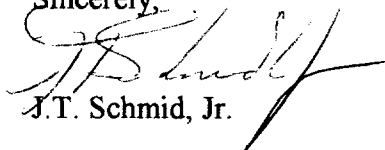

Four Star Oil & Gas Company hereby requests administrative approval for an unorthodox location of its John Charles #6C well (API No. 300453060400-S1) under the provisions of Rule 104 NMOCD.

The John Charles #6C was drilled to a total depth of 4540' MD on 3 September 2002 and completed in the Mesaverde formation at a location 1970' FNL & 2450' FEL in Section 13, T27N-R9W, San Juan County, New Mexico. The well is presently completed and is awaiting approval of this NSL before approval of the C-104.

The well is spaced as a standup 320 ac unit in the E/2 of Section 13. The well is located within the Blanco-Mesaverde Gas Pool. This pool is currently governed by the "Special Rules and Regulations for the Blanco-Mesaverde Gas Pool" as contained within Division Order No. R-10987-A. The spacing rules require that a Mesaverde well shall be located not closer than 660 feet to the North and South lines of the GPU. The reason for this NSL for the John Charles #6C well is that the surface topography placed the well and a large part of the legal drilling window in the Blanco Wash.

A copy of this application is being submitted to all offset operators by certified mail as required under rule 104.F.(3), such that they may furnish your office in Santa Fe a waiver of objection.

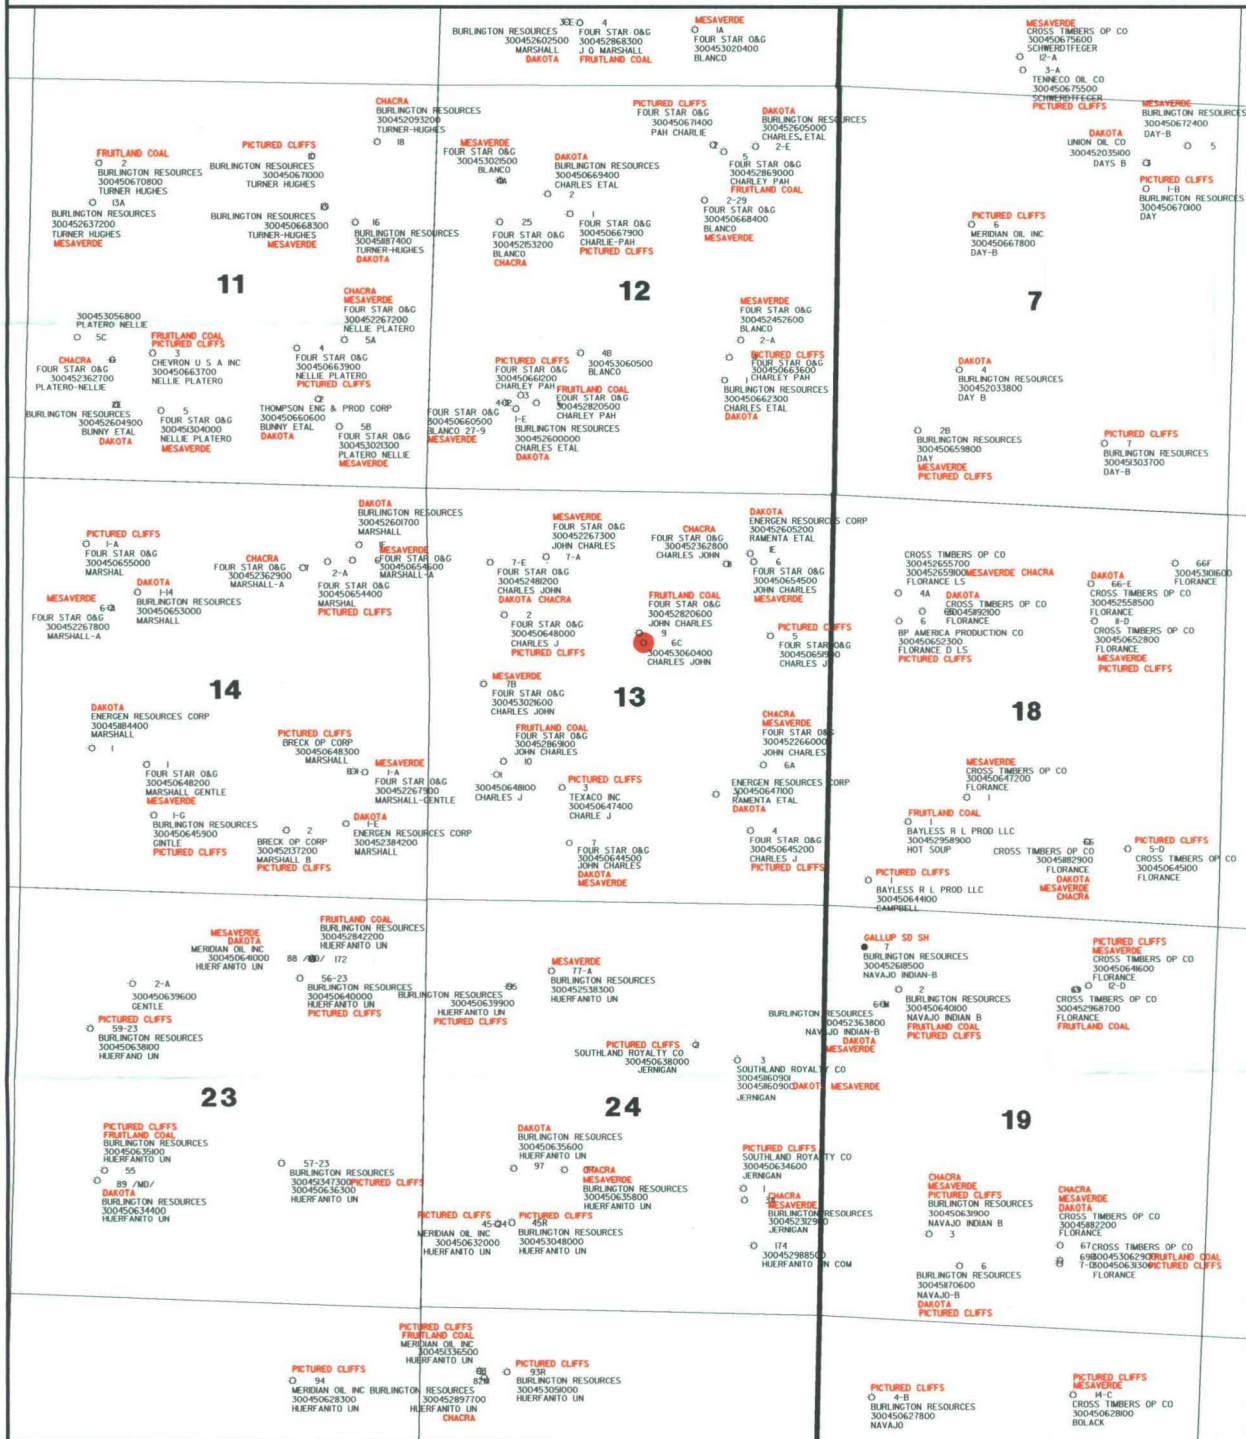

Sincerely,

J.T. Schmid, Jr.

**RE: Application for Administrative Approval of Unorthodox Well Location
John Charles #6C, Supplemental Information
1970' FNL & 2450' FEL Section 13, T27N-R9W
San Juan County, NM**

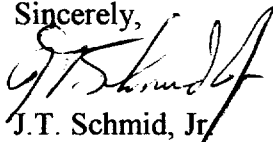

Dear Mr. Jones:

Pursuant to our phone conversation on 5 November, Four Star Oil & Gas Company hereby submits the additional information you requested.

We checked our lease records and confirmed that Four Star Oil & Gas Company is the only WI owner in the W/2 of Section 13 in the Mesaverde. With that in mind there is no need to notice any other parties with respect to the W/2 of Section 13.

Enclosed please find a topography plat showing the location of the #6C well. In addition, please find enclosed the Administrative Application Checklist. Thank you for your kind attention in this matter and please call me if there are any additional questions.

Sincerely,

J.T. Schmid, Jr.
