Re: Application for Non-Standard  
 80-Acre Proration Unit  
 Danglade #2, C SE SE 13-22S-37E  
 Lea County, New Mexico

cc H.A.M. OCC 4/17/57

Oil Conservation Commission  
 Attention of Mr. A. L. Porter, Jr.  
 P. O. Box 871  
 Santa Fe, New Mexico

Gentlemen:

The R. Olsen Oil Company has recently recompleted its Danglade #2 in the SE/4 SE/4 of Section 13-22S-37E as a Blinebry gas well. At the present time we plan to dedicate 80 acres, consisting of the S/2 SE/4 of Section 13-22S-37E to subject well and respectfully request approval for a non-standard 80-acre proration unit. The following facts are offered in support of this application:

1. R. Olsen Oil Company is the owner and operator of an oil and gas lease known as the Danglade.
2. R. Olsen Oil Company's Danglade #2 well located 660 feet from the South and East lines of Section 13, Township 22 South, Range 37 East was recompleted as a Blinebry gas well on April 6, 1957. Subject well formerly produced oil from the Drinkard oil pool, however the Drinkard formation has been sealed off by a plug at 6050 feet. The Blinebry zone, from which the well is now producing, is perforated from 5435 to 5500 feet.
3. R. Olsen Oil Company contends that the proposed unit does not exceed 2640 feet in length; that all acreage within the proposed unit is reasonably proven for Blinebry gas; that the proposed unit consists of contiguous acreage and that the unit lies wholly within the boundaries of a governmental quarter section.

By copy of the attached letter, all operators within 1500 feet of the proposed unit well have been notified of the intention of the R. Olsen Oil Company to form the proposed non-standard gas

Mr. Porter

proration unit and have been asked to sign waivers in the event they have no objections to the formation of the described unit.

Respectfully submitted,

R. OLSEN OIL COMPANY

Re: US-375 Danglede #2  
SE SE 13-22S-37E  
Lea County, New Mexico

New Mexico Oil Conservation Commission  
Attention of Mr. Porter  
Box 871  
Santa Fe, New Mexico

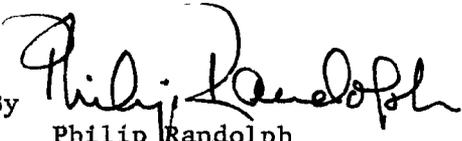

Gentlemen:

With further reference to our Application for an un-orthodox unit in the Blinebry Pool composed of the S/2 SE/4 of Section 13-22S-37E for our Danglede #2 well located 660' from the South and East lines of said section, we attach waivers from all offset operators involved.

It would be appreciated if approval could be given by the Commission as rapidly as practical as subject well is already tied into the El Paso Natural Gas system and can be placed on production as soon as your approval is given.

Very truly yours,

R. OLSEN OIL COMPANY

Gentlemen:

We have been informed that R. Olsen Oil Company has requested approval for a non-standard 80-acre gas proration unit in the Blinebry Gas Pool to be allocated to its Danglade #2 well, located in the Center of the SE/4 SE/4 of Section 13, Township 22 South, Range 37 East, Lea County, New Mexico. We understand that the well has been recompleted in the Blinebry Gas Pool and the requested non-standard unit consists of the lands described as the S/2 SE/4 of Section 13, Township 22 South, Range 37 East, N.M.P.M., Lea County, New Mexico.

You are respectfully advised that we hereby waive notice and hearing as to said application for approval of said above described non-standard gas proration unit.

Yours very truly,

CODSEN PETROLEUM CORPORATION

Gentlemen:

This is to advise that Gulf Oil Corporation has been given due notice that R. Olsen Oil Company is making application for an 80-acre non-standard gas proration unit in the Blinbery Gas Pool. We hereby waive notice of hearing and advise that we have no objection to the approval of said unit as described below:

Consisting of the S/2 of the SE/4 of Section 13, T-22-S, R-37-E, N.M.P.M., Lea County, New Mexico, to be assigned to R. Olsen Oil Company's Dangle Well No. 2, located 660 feet from the south and east lines of Section 13.

Executed this 23rd day of April, 1957.

Yours very truly,

GULF OIL CORPORATION
