Lea County, New Mexico
Area 14

Gentlemen:

Attached hereto are the original and two copies of my application for a non-standard proration gas unit covering the above captioned tract.

Copies of the attached application have been sent by registered mail to: Mr. Raymond Lamb, Wilson Oil Company, Box 1436, Artesia, N. M. and Mr. John W. Cornwall, Amerada Petroleum Corporation, Box 591, Midland, Texas. They have been requested to furnish me with a written waiver of their right to protest the formation of this unit. Upon receipt, I will forward you a copy of each of these waivers.

Sincerely,

Robert N. Enfield

Re: Bell Oil Company Ltd.
No. 1 Sinclair-State
NE/4 Section 32
T-20S R-36E NMPM
Lea County, New Mexico

referred to Summit

Gentlemen:

In accordance with Rules 3 and 5 of Order R-522 of the Special Pool Rules and Rule 112-A of Order 316 of the Commission's Rules and Regulations, I am hereby applying for a non-standard proration gas unit covering the NE/4 of Section 32, T-20S R-36E, NMPM, Lea County, New Mexico.

The Bell Oil Company Ltd. No. 1 Sinclair-State is located 1980' from the north line and 1980' from the east line in location G of said Section 32. The well was completed as a gas well in the Basal Yates Sand formation from perforations at 3857' to 3872'.

I believe that administrative approval of this application will tend to promote the conservation of gas and the better utilization of reservoir energy, and that the State will receive its fair share of the recoverable gas in place.

A contract for the sale of this gas has been negotiated with El Paso Natural Gas Company and they are presently preparing to lay a line into this well.

Due to the fact that subject lease expires February 10, 1958 your earliest attention to this matter will be greatly appreciated.

Sincerely,

Robert N. Enfield

Attention: Mr. Dan Nutter

Dear Mr. Nutter:

With reference to my January 23 application for a non-standard proration gas unit comprising the above captioned acreage, I am forwarding herewith the following waivers:

- 1) Original and one copy executed by J. C. Blackwood of Amerada Petroleum Corporation; and dated January 27, 1958;
- 2) Original and one copy executed by N. Raymond Lamb of Wilson Oil Company, and dated January 27, 1958.

Since these two companies are the only offset operators within 1500 feet of the well location, I believe it is now in order for the Commission to approve my non-standard application.

Please advise on this matter at your earliest convenience.

Sincerely,

Robert N. Enfield

WAIVER

Bell Oil Company Ltd. has advised the undersigned that it intends to file on behalf of itself an application with the Oil Conservation Commission of the State of New Mexico requesting an exception to Rule 5(a) of the Commission's Order No. R-520 to permit the formation of a non-standard gas proration unit comprising the NE/4 of Section 32, Township 20 South, Range 36 East, NMPM, Lea County, New Mexico, being lands within one mile of the present boundaries of the Eumont Gas Pool.

Bell Oil Company Ltd. has also advised the undersigned that a well designated as the Sinclair-State No. 1 has been drilled on the above described land at a location 1980 feet from the North line and 1980 feet from the East line of said Section 32.

Therefore, the undersigned, owner of an interest within 1500 feet of the above described well to which the NE/4 of Section 32, Township 20 South, Range 36 East, NMPM, is proposed to be allocated, hereby consents to the formation of the proposed non-standard proration unit described above.
